

WHAT'S WITH THE UMBRELLAS?

THEY'RE FOR PROTECTION.

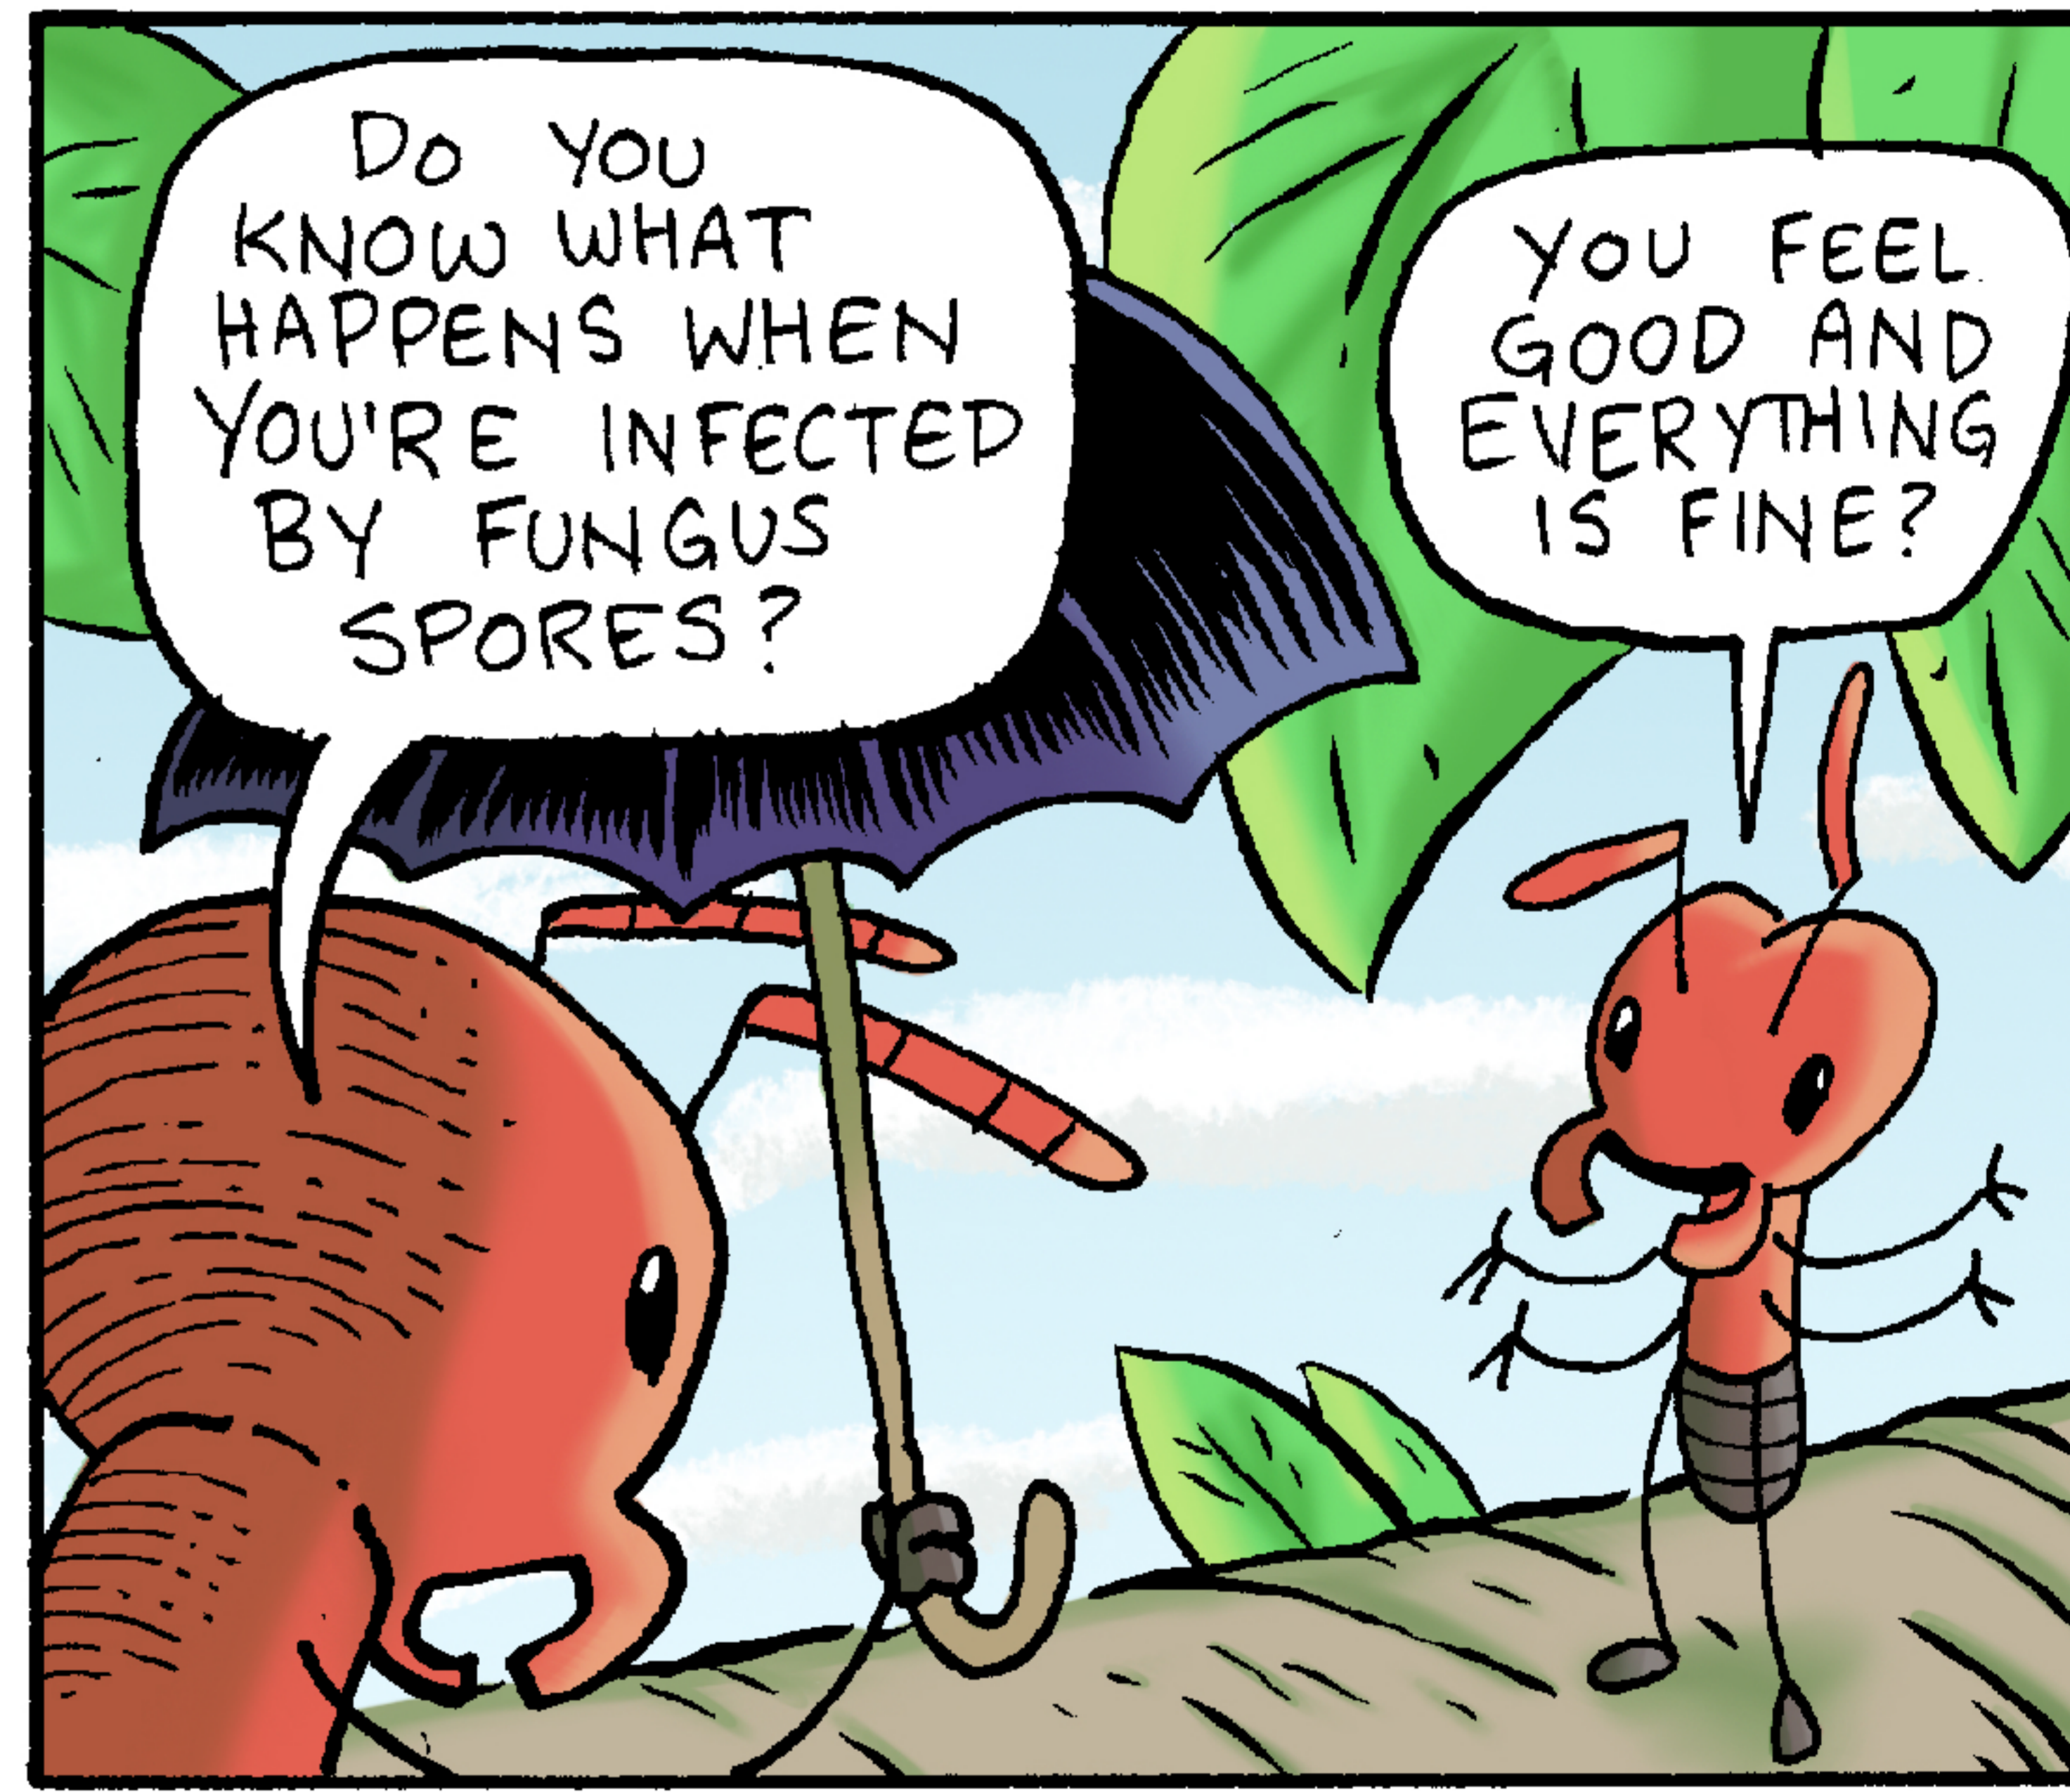

YESTERDAY WE ALMOST RAN INTO A DEAD **ZOMBIE** ANT WITH A PARASITIC FUNGUS GROWING OUT OF ITS HEAD. IT ALMOST SPRAYED US WITH ITS SPORES!

!

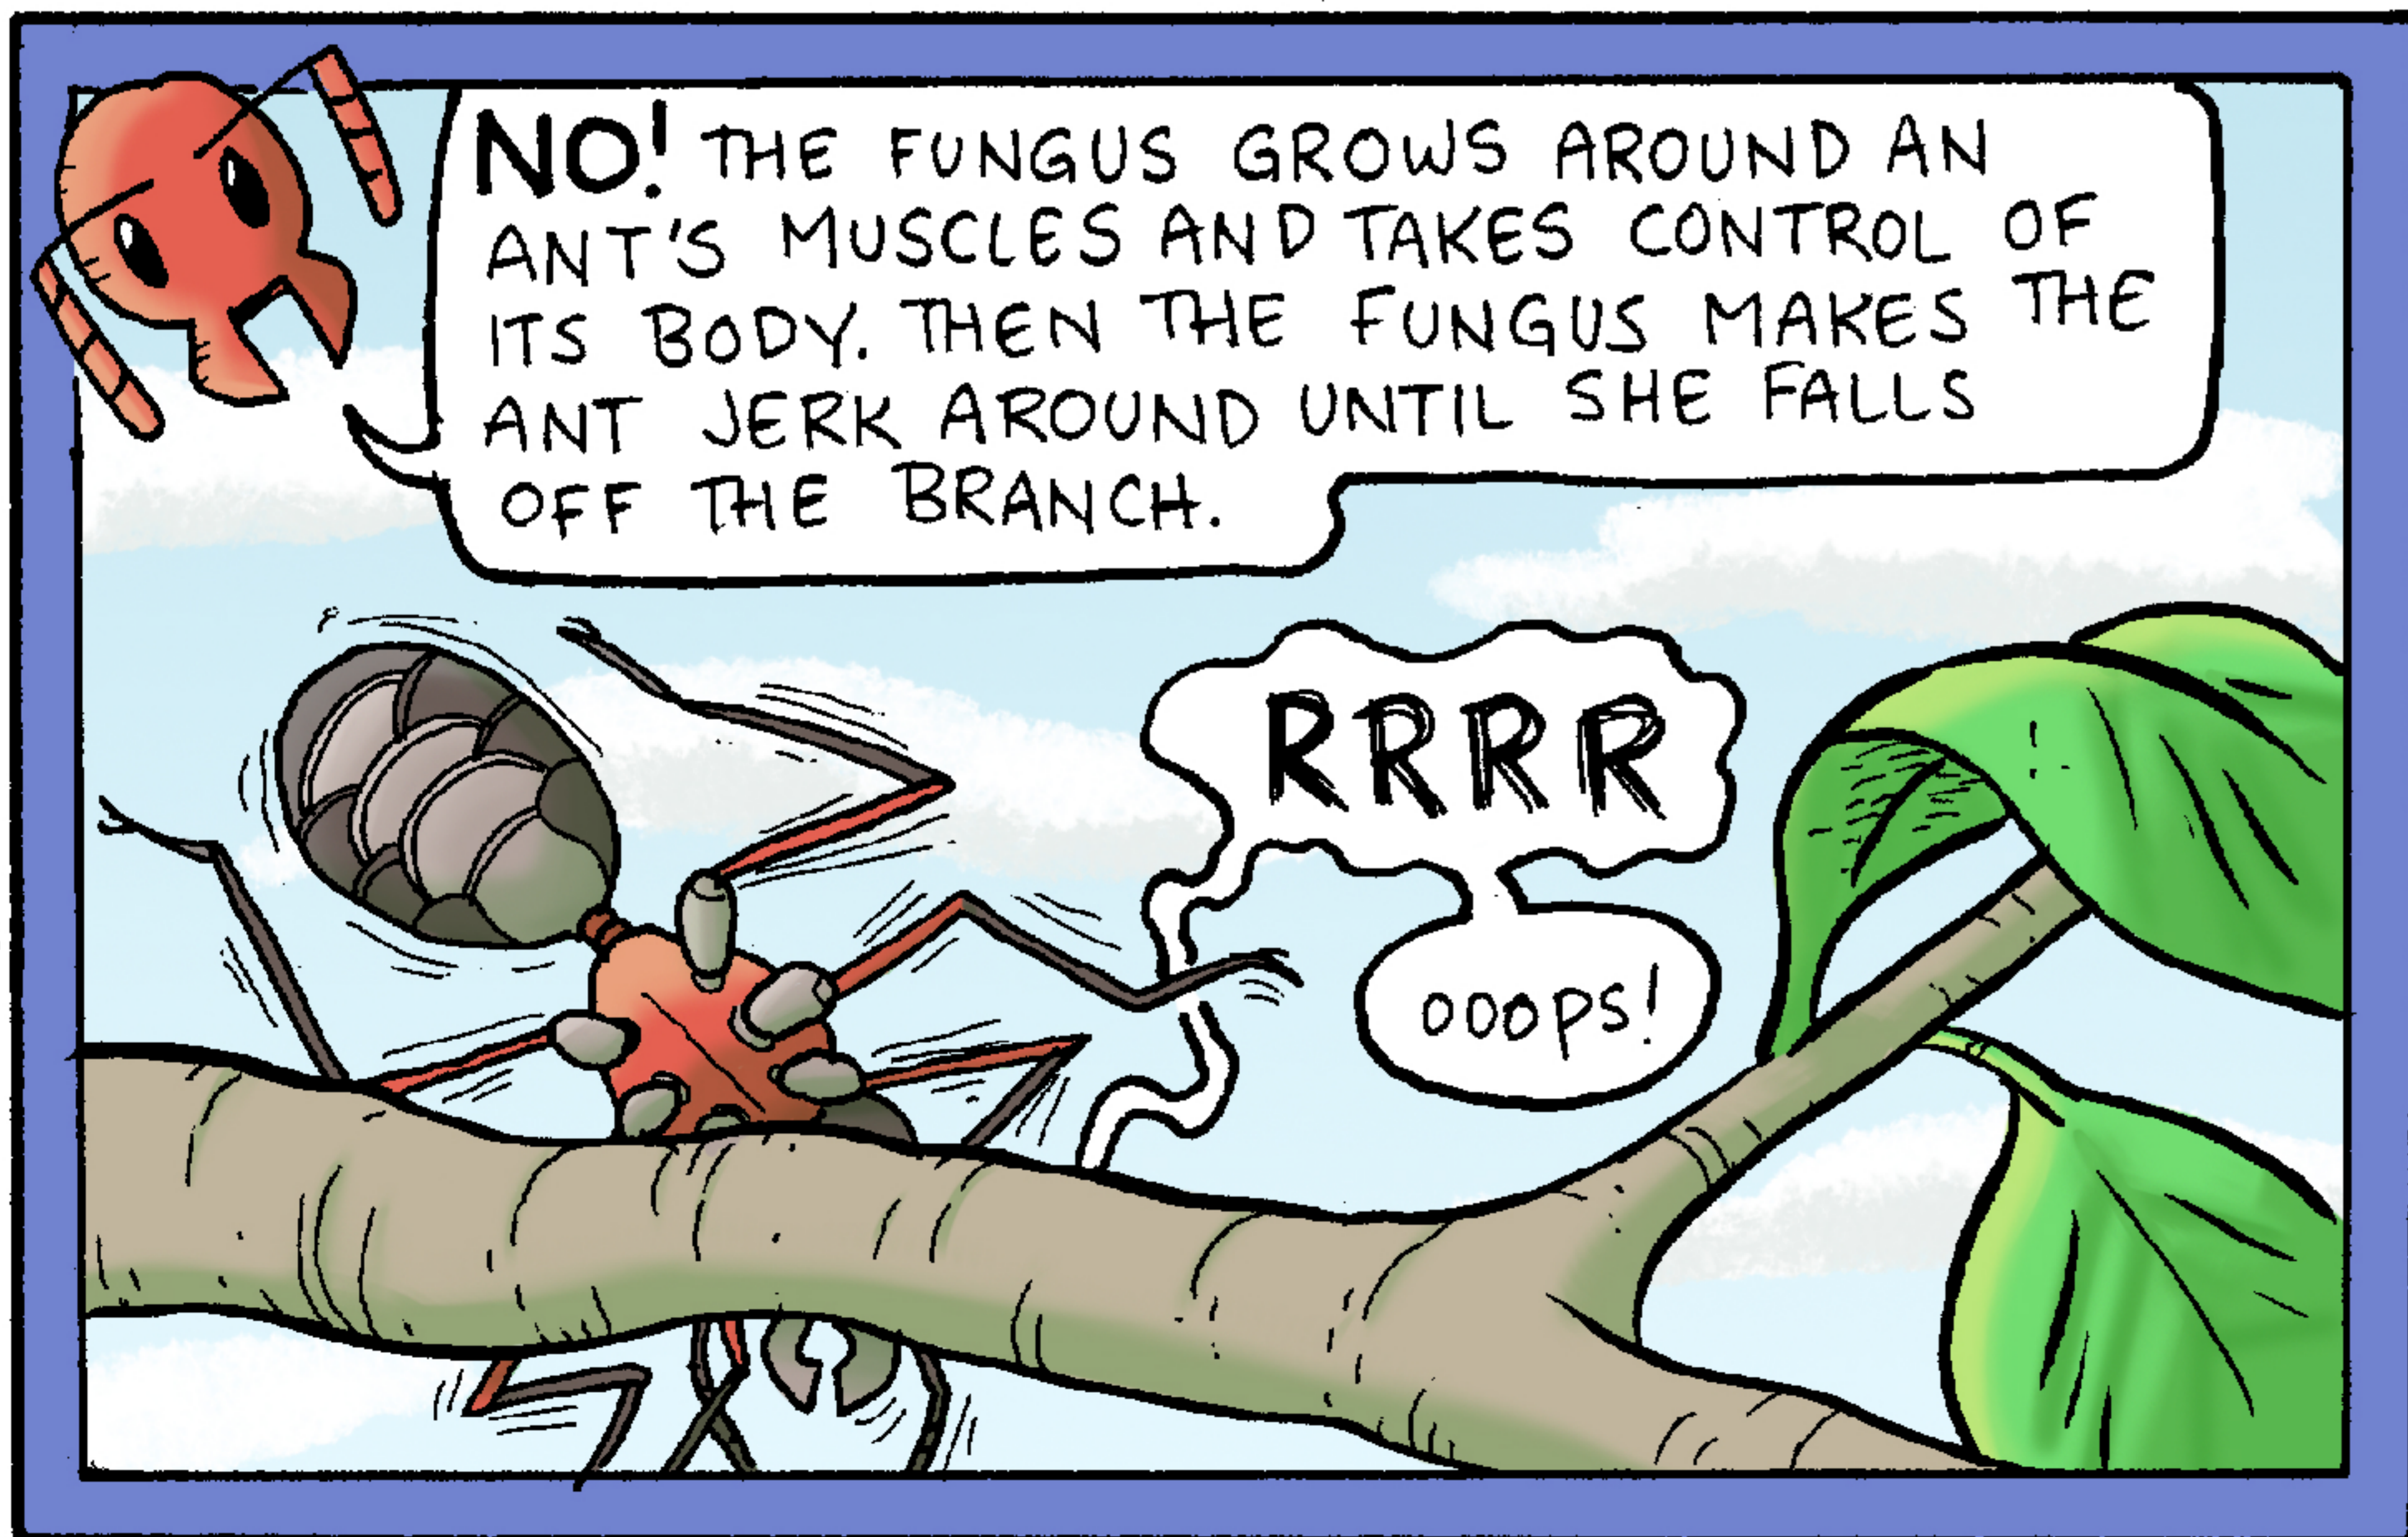

OH, PLEASE. EVERYONE KNOWS ZOMBIES AREN'T REAL.

ZOMBIE HUMANS AREN'T REAL, BUT ZOMBIE ANTS TOTALLY ARE.

DO YOU KNOW WHAT HAPPENS WHEN YOU'RE INFECTED BY FUNGUS SPORES?

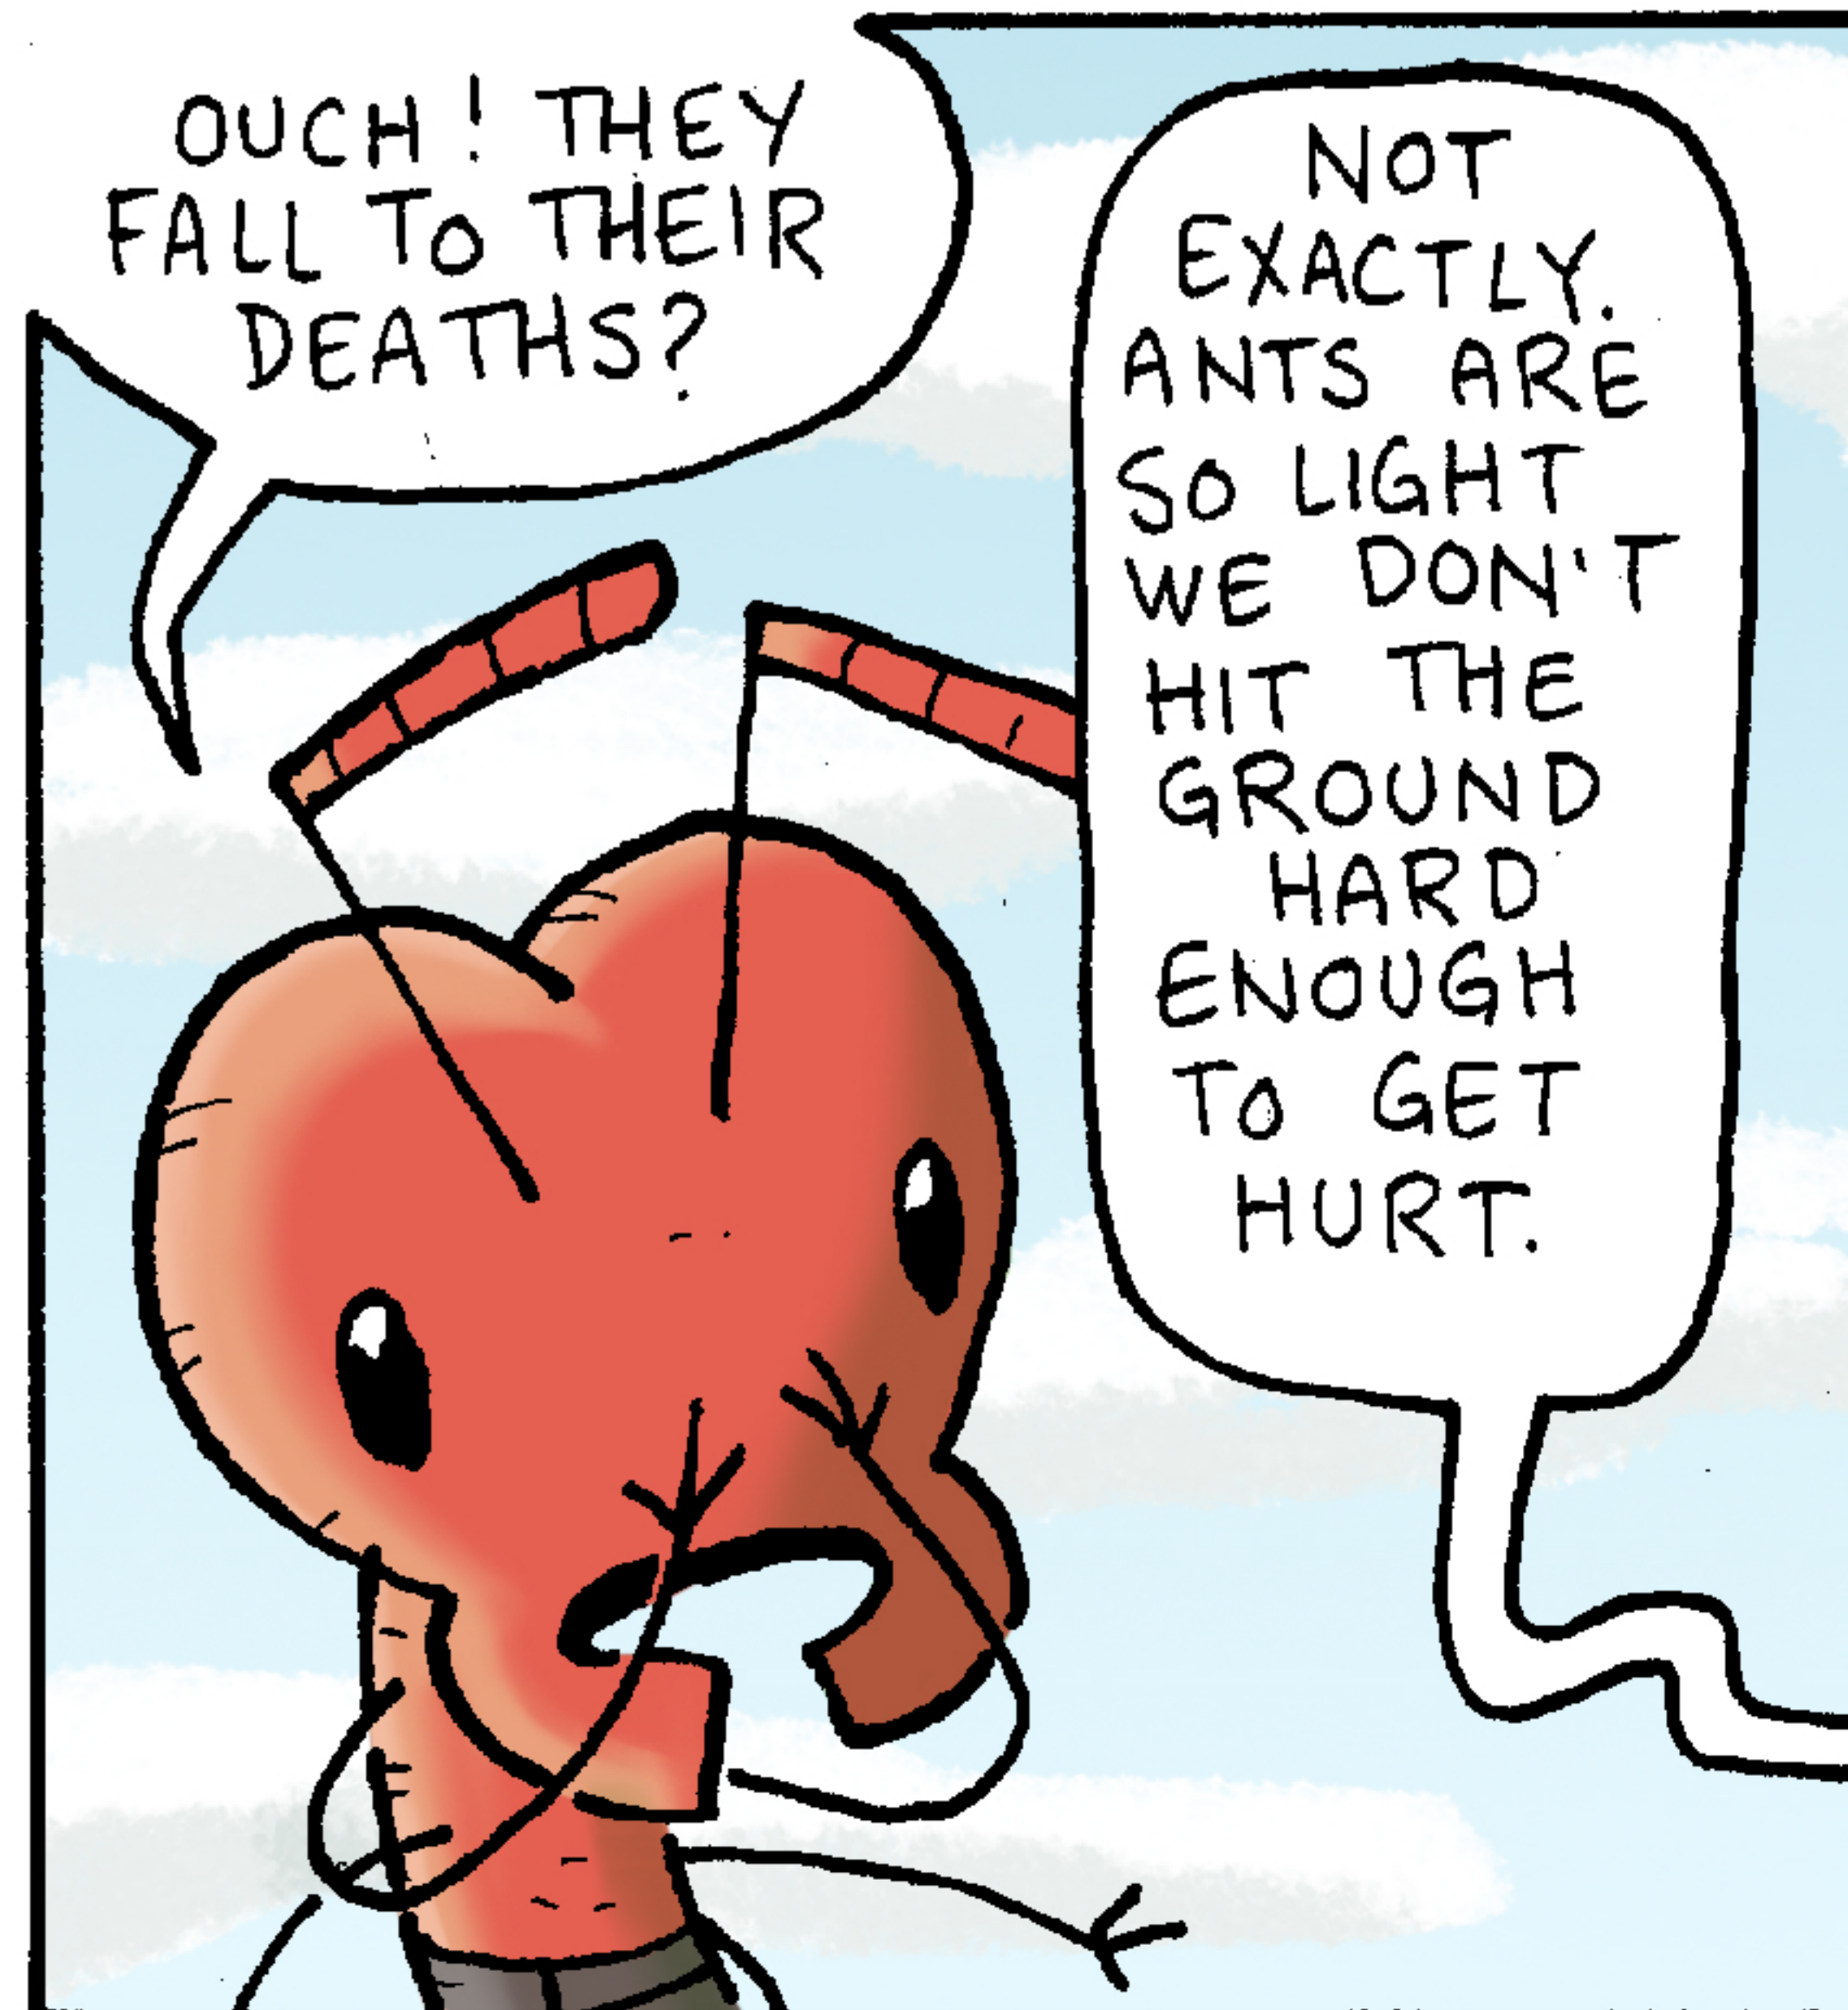

YOU FEEL GOOD AND EVERYTHING IS FINE?

NO! THE FUNGUS GROWS AROUND AN ANT'S MUSCLES AND TAKES CONTROL OF ITS BODY. THEN THE FUNGUS MAKES THE ANT JERK AROUND UNTIL SHE FALLS OFF THE BRANCH.

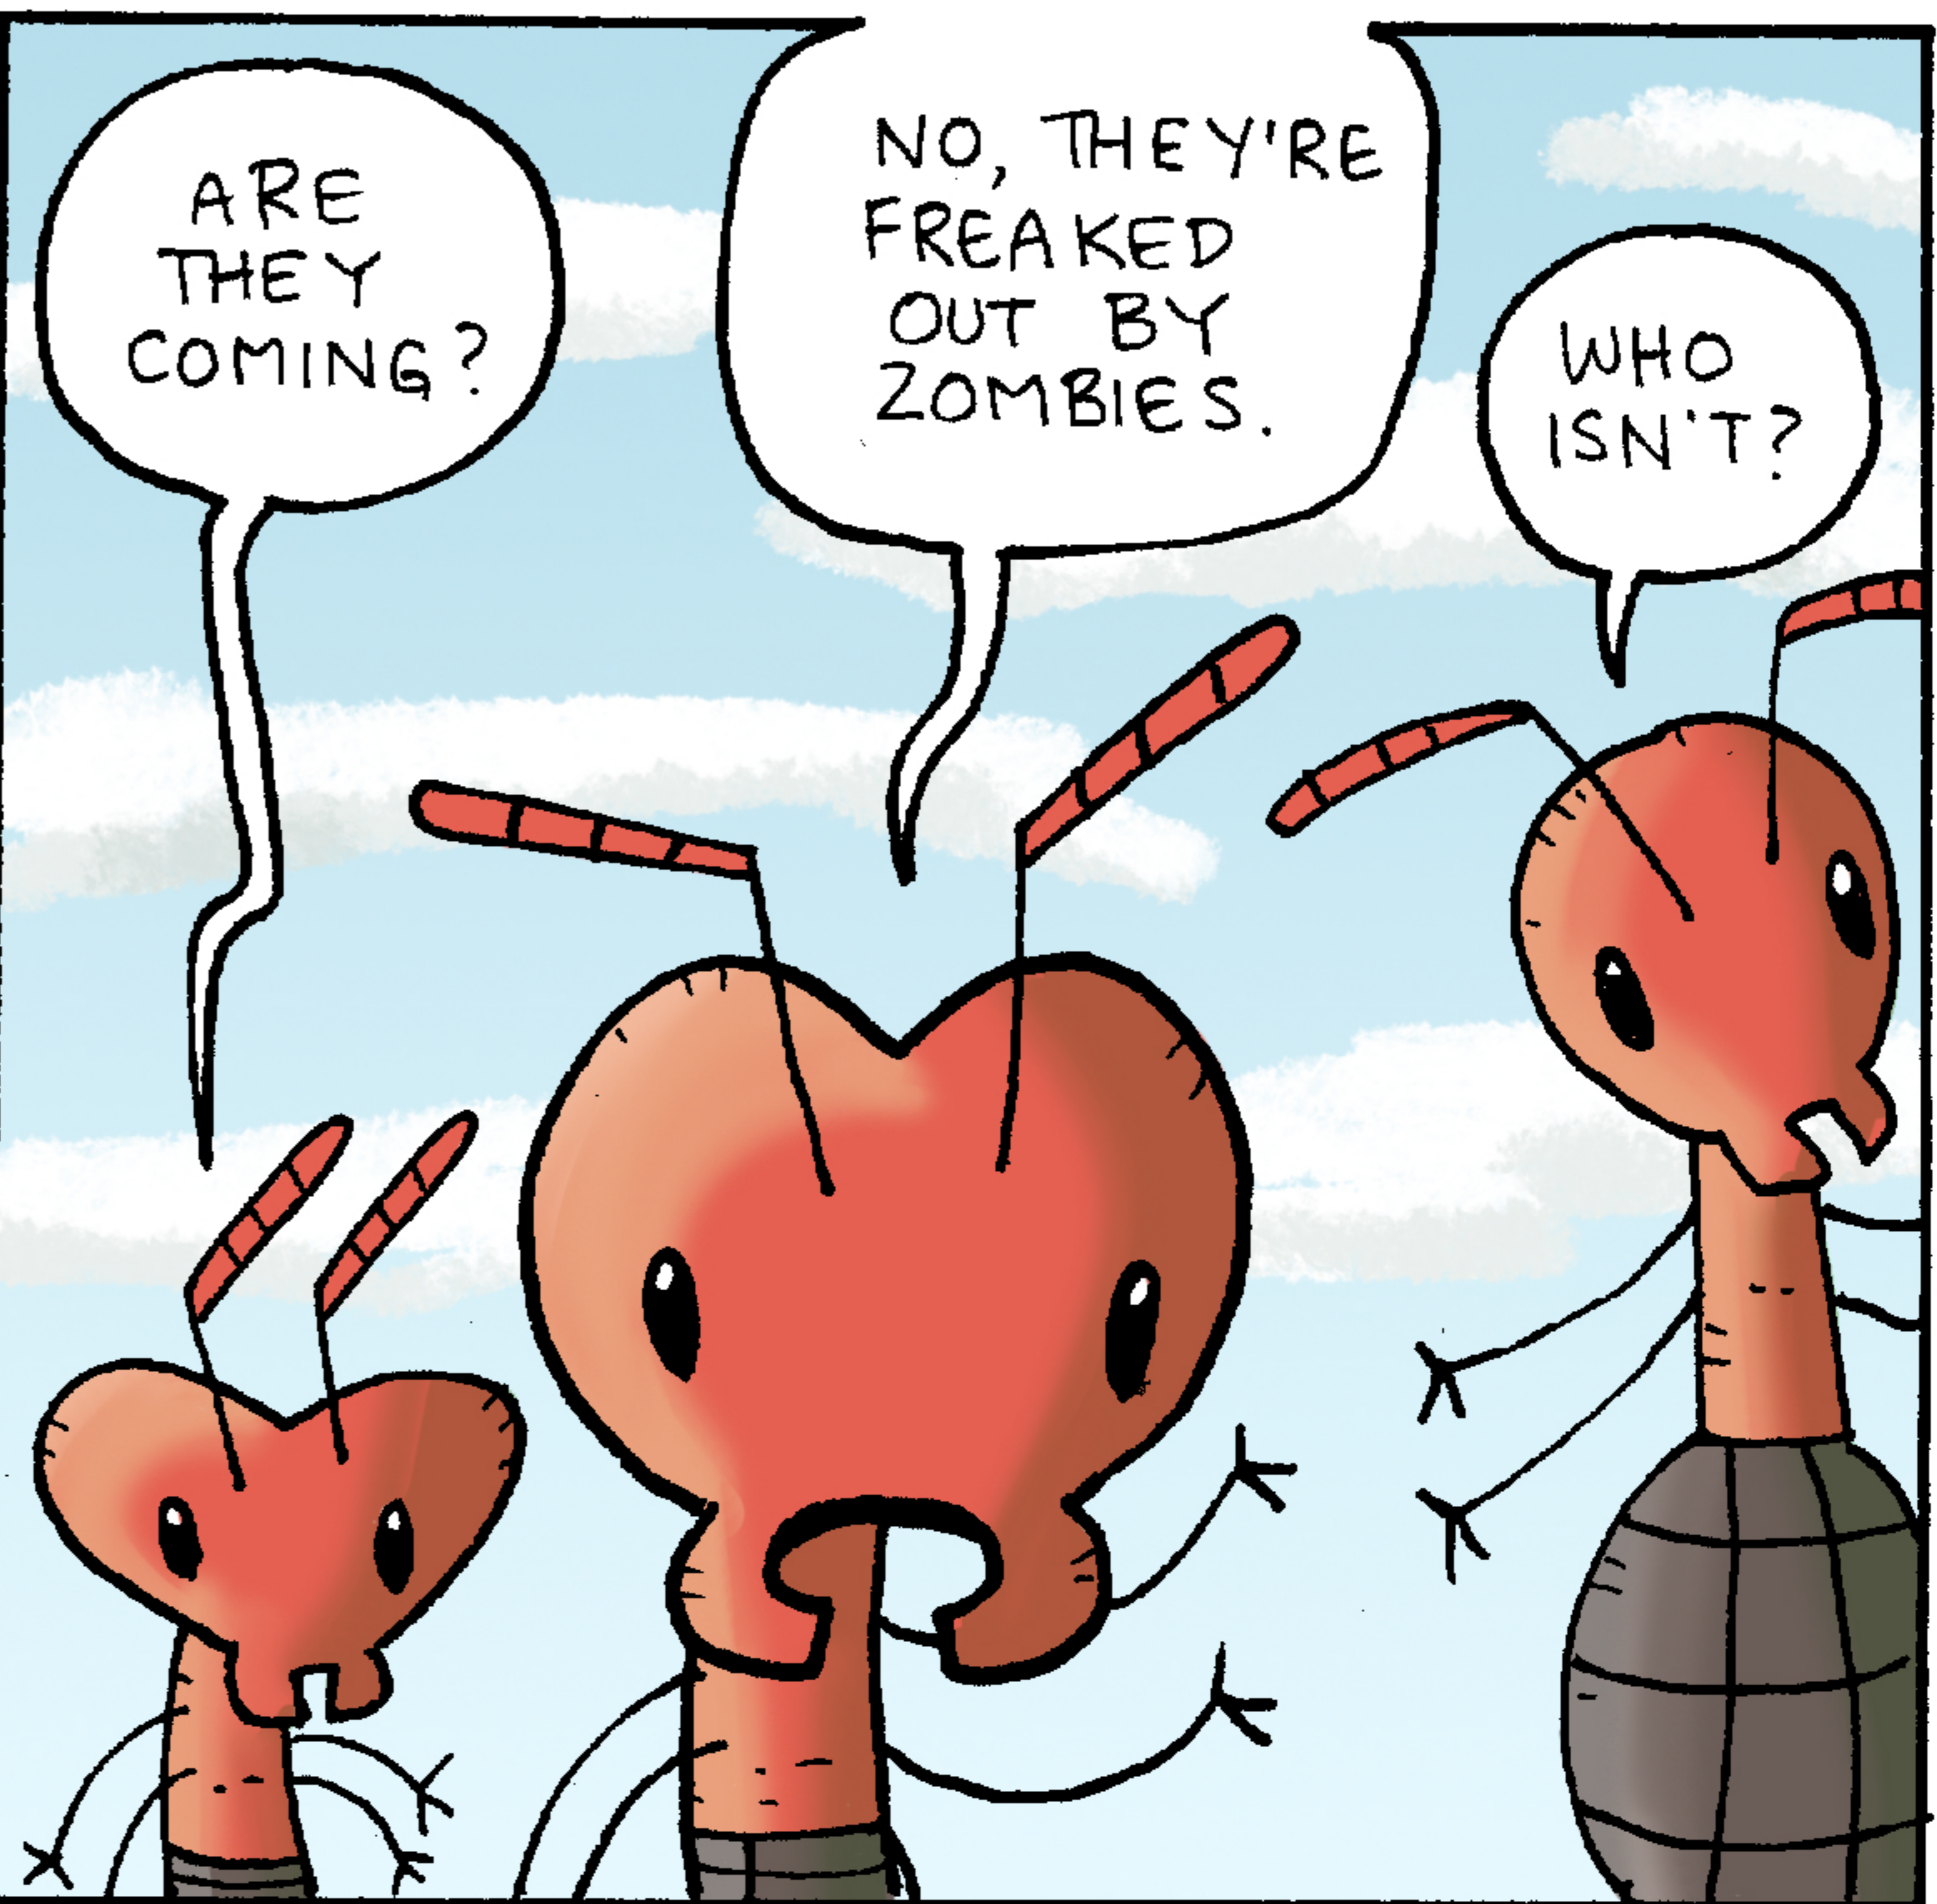

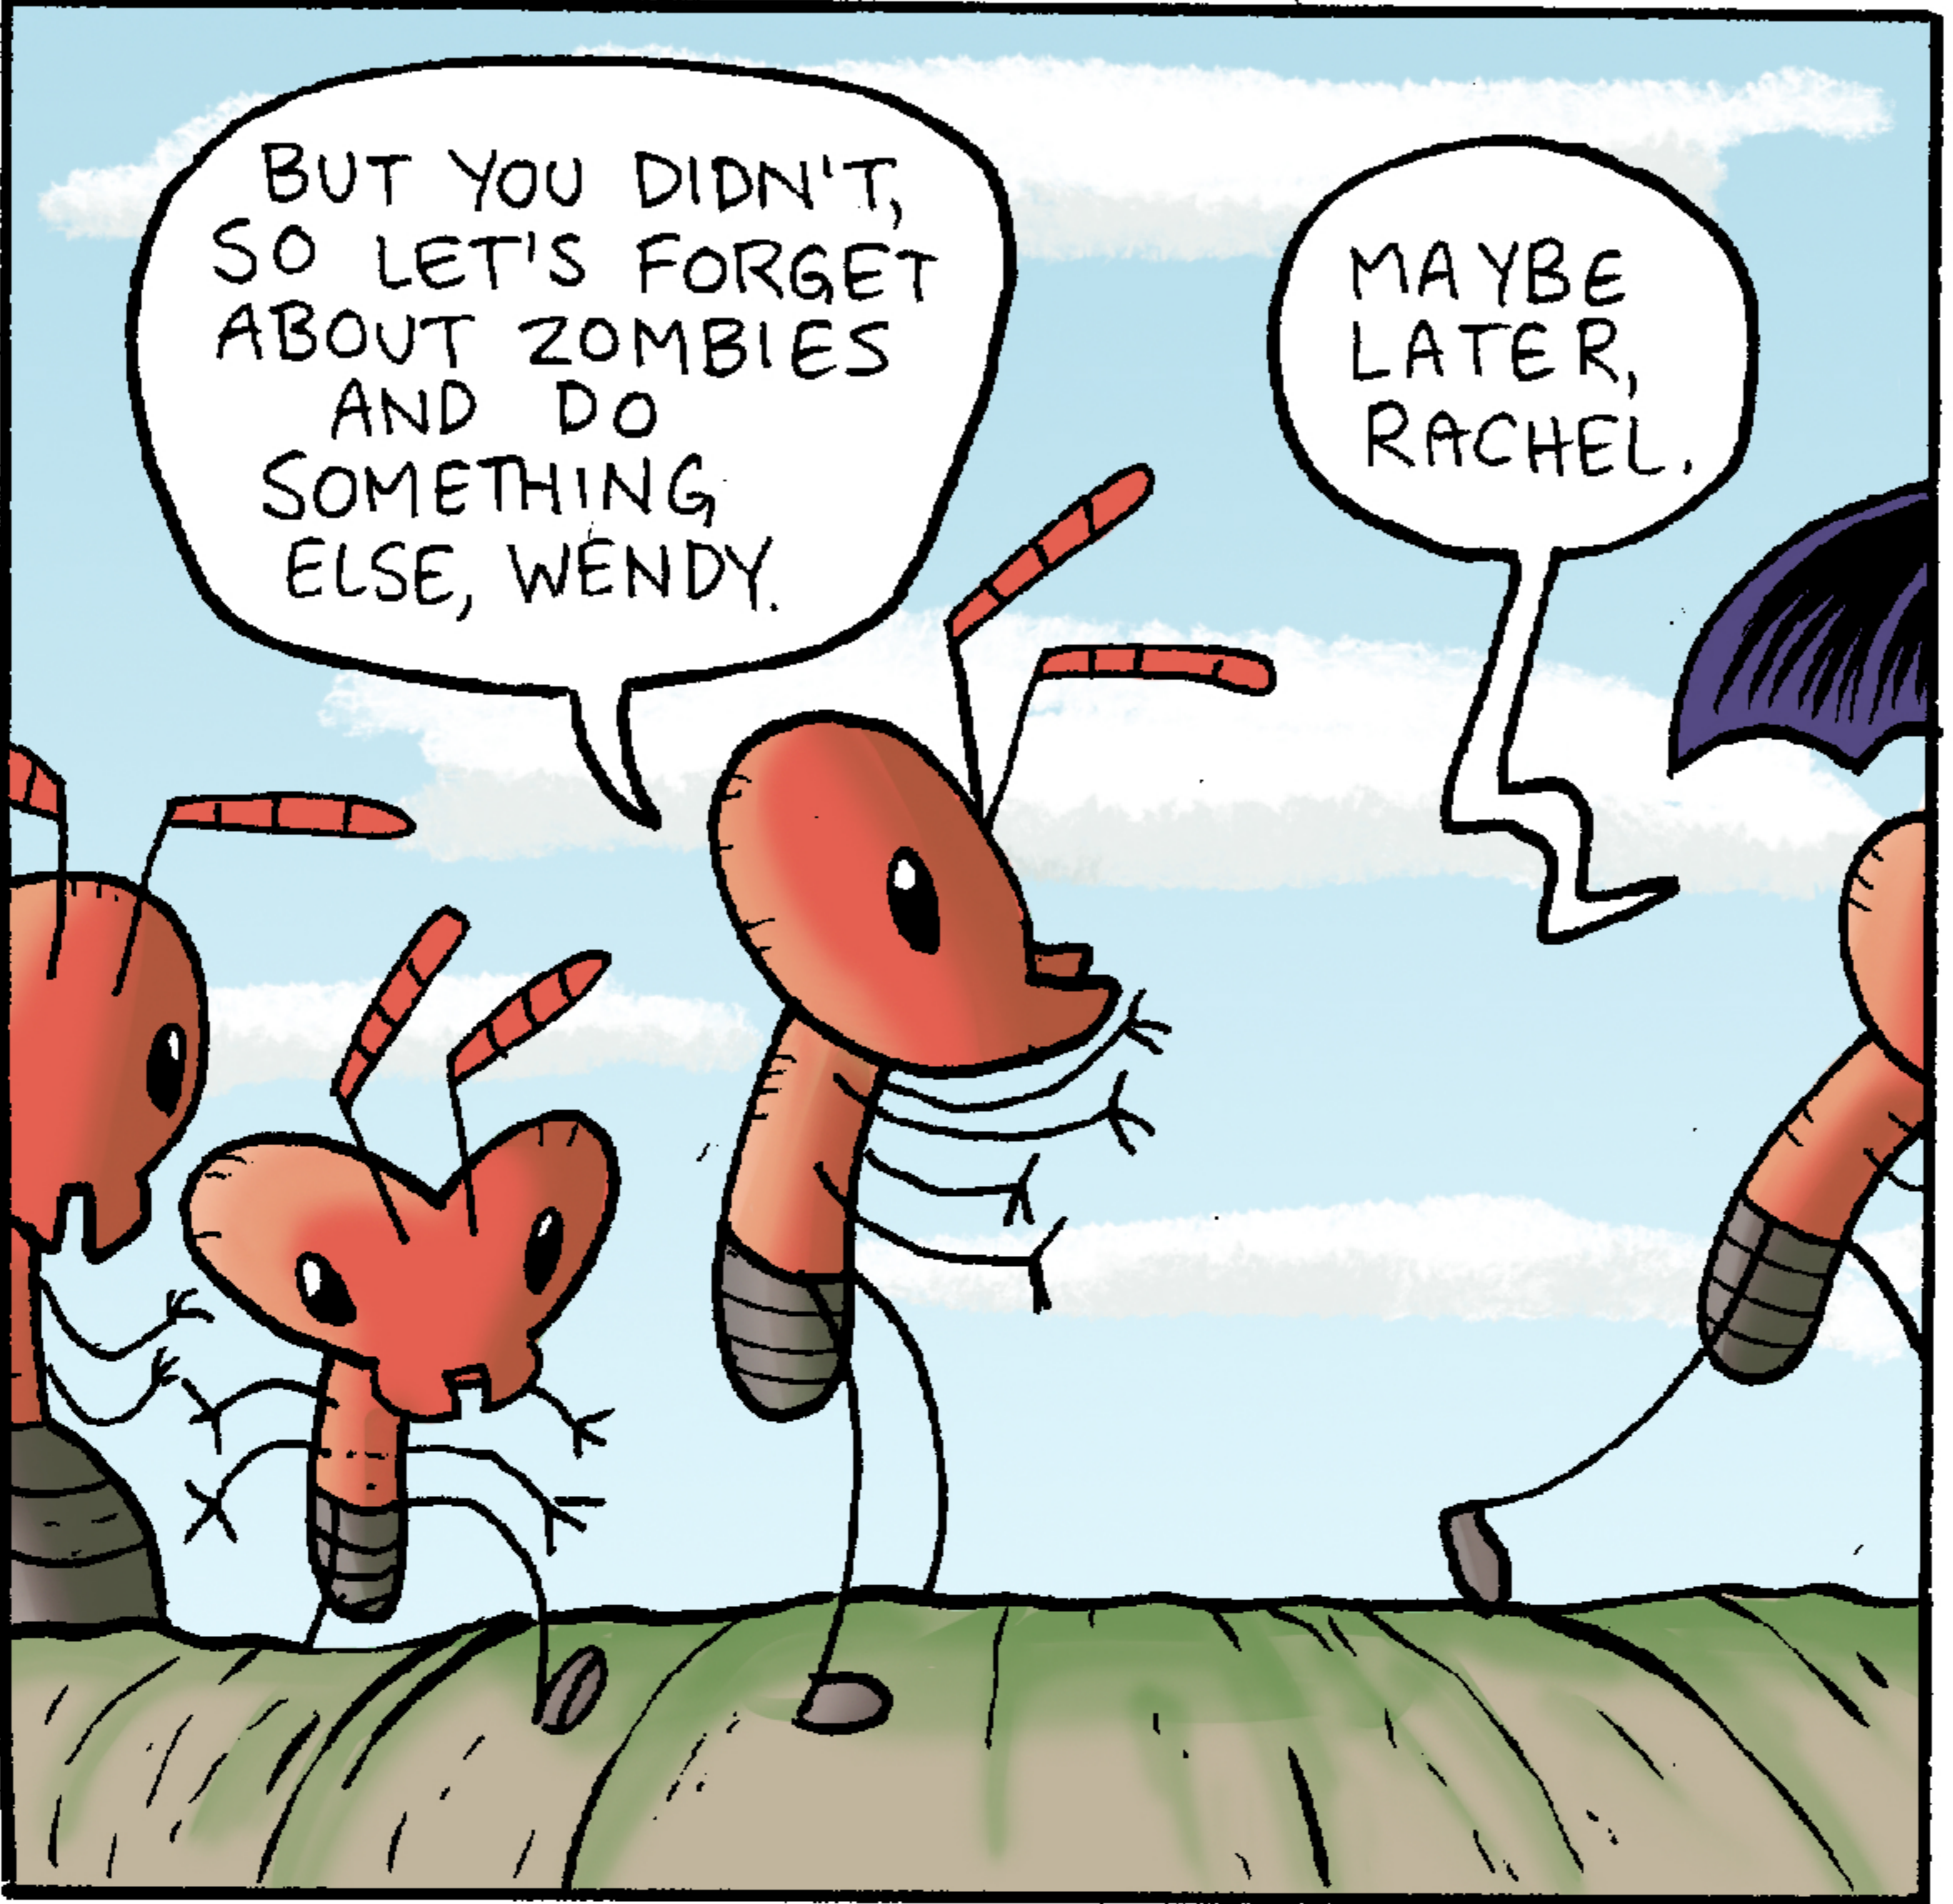

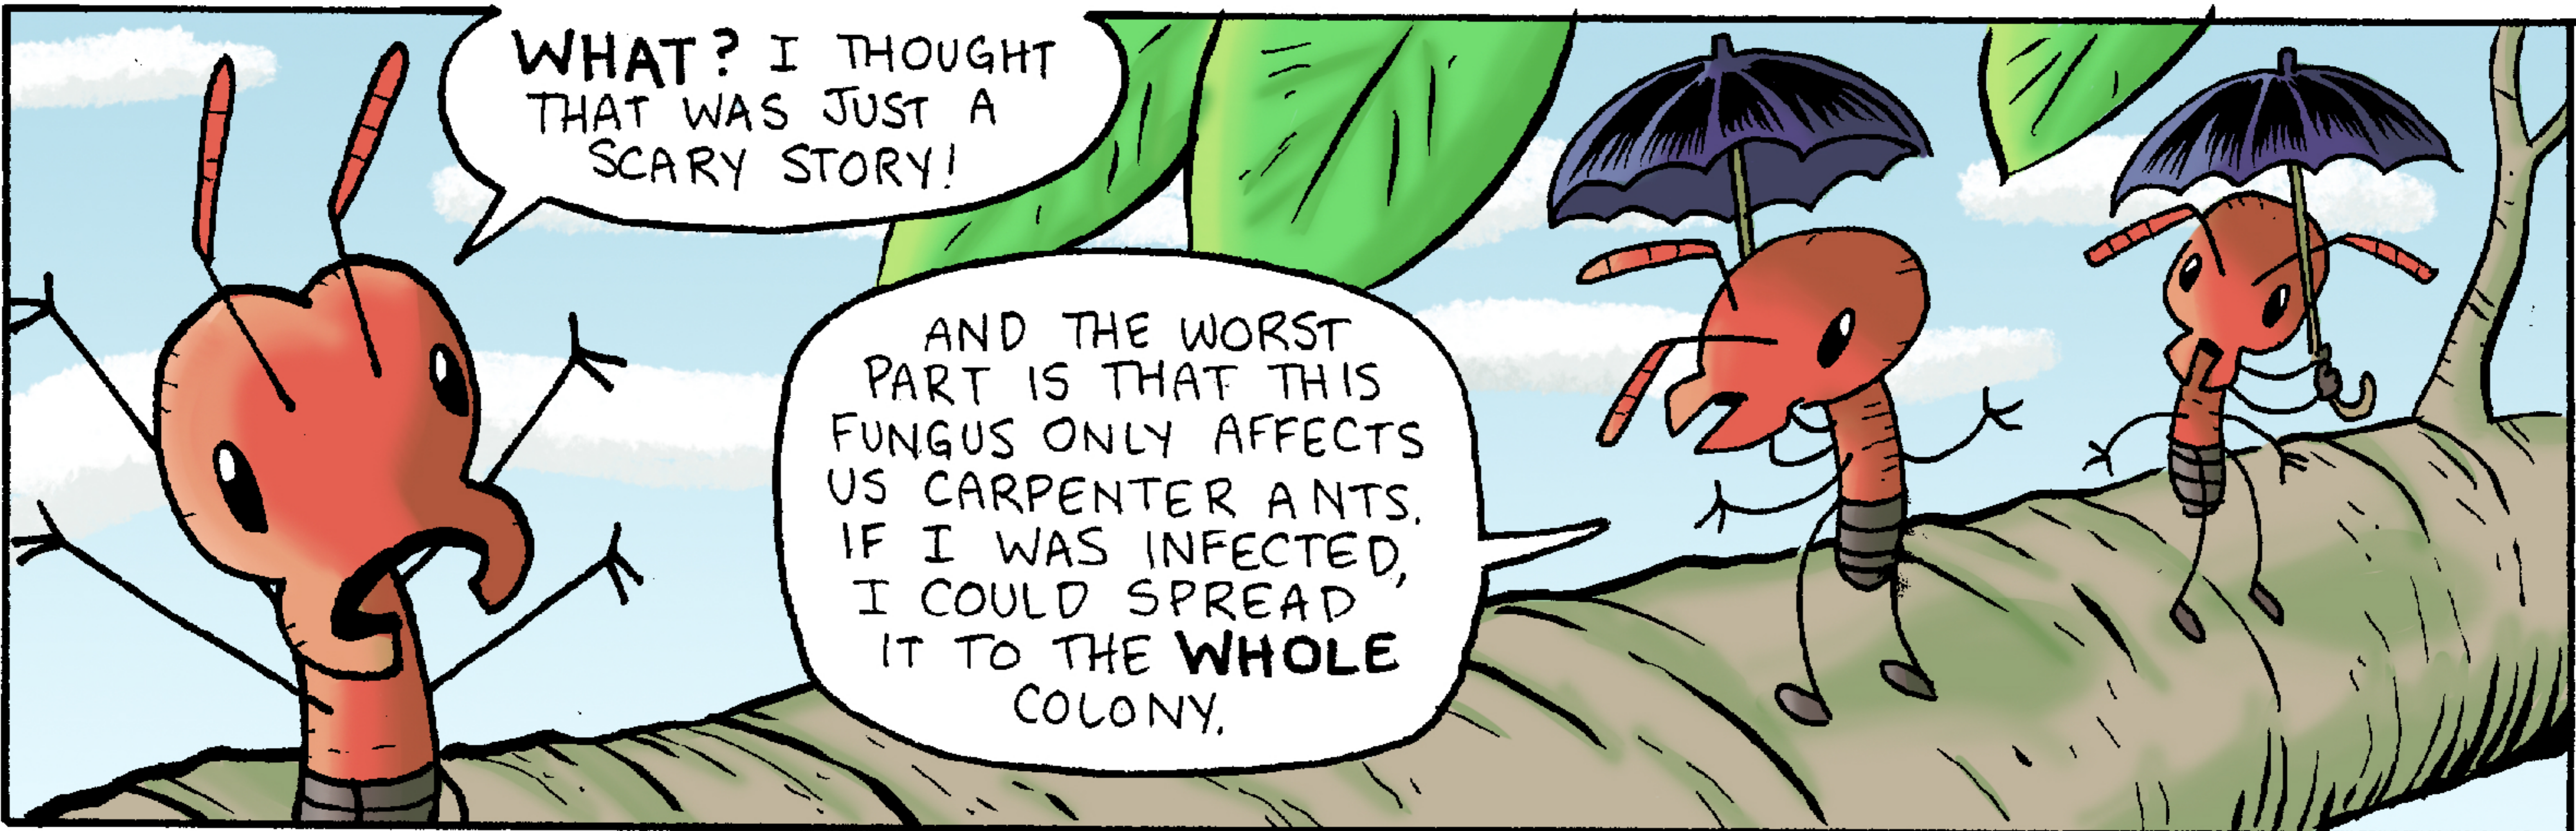

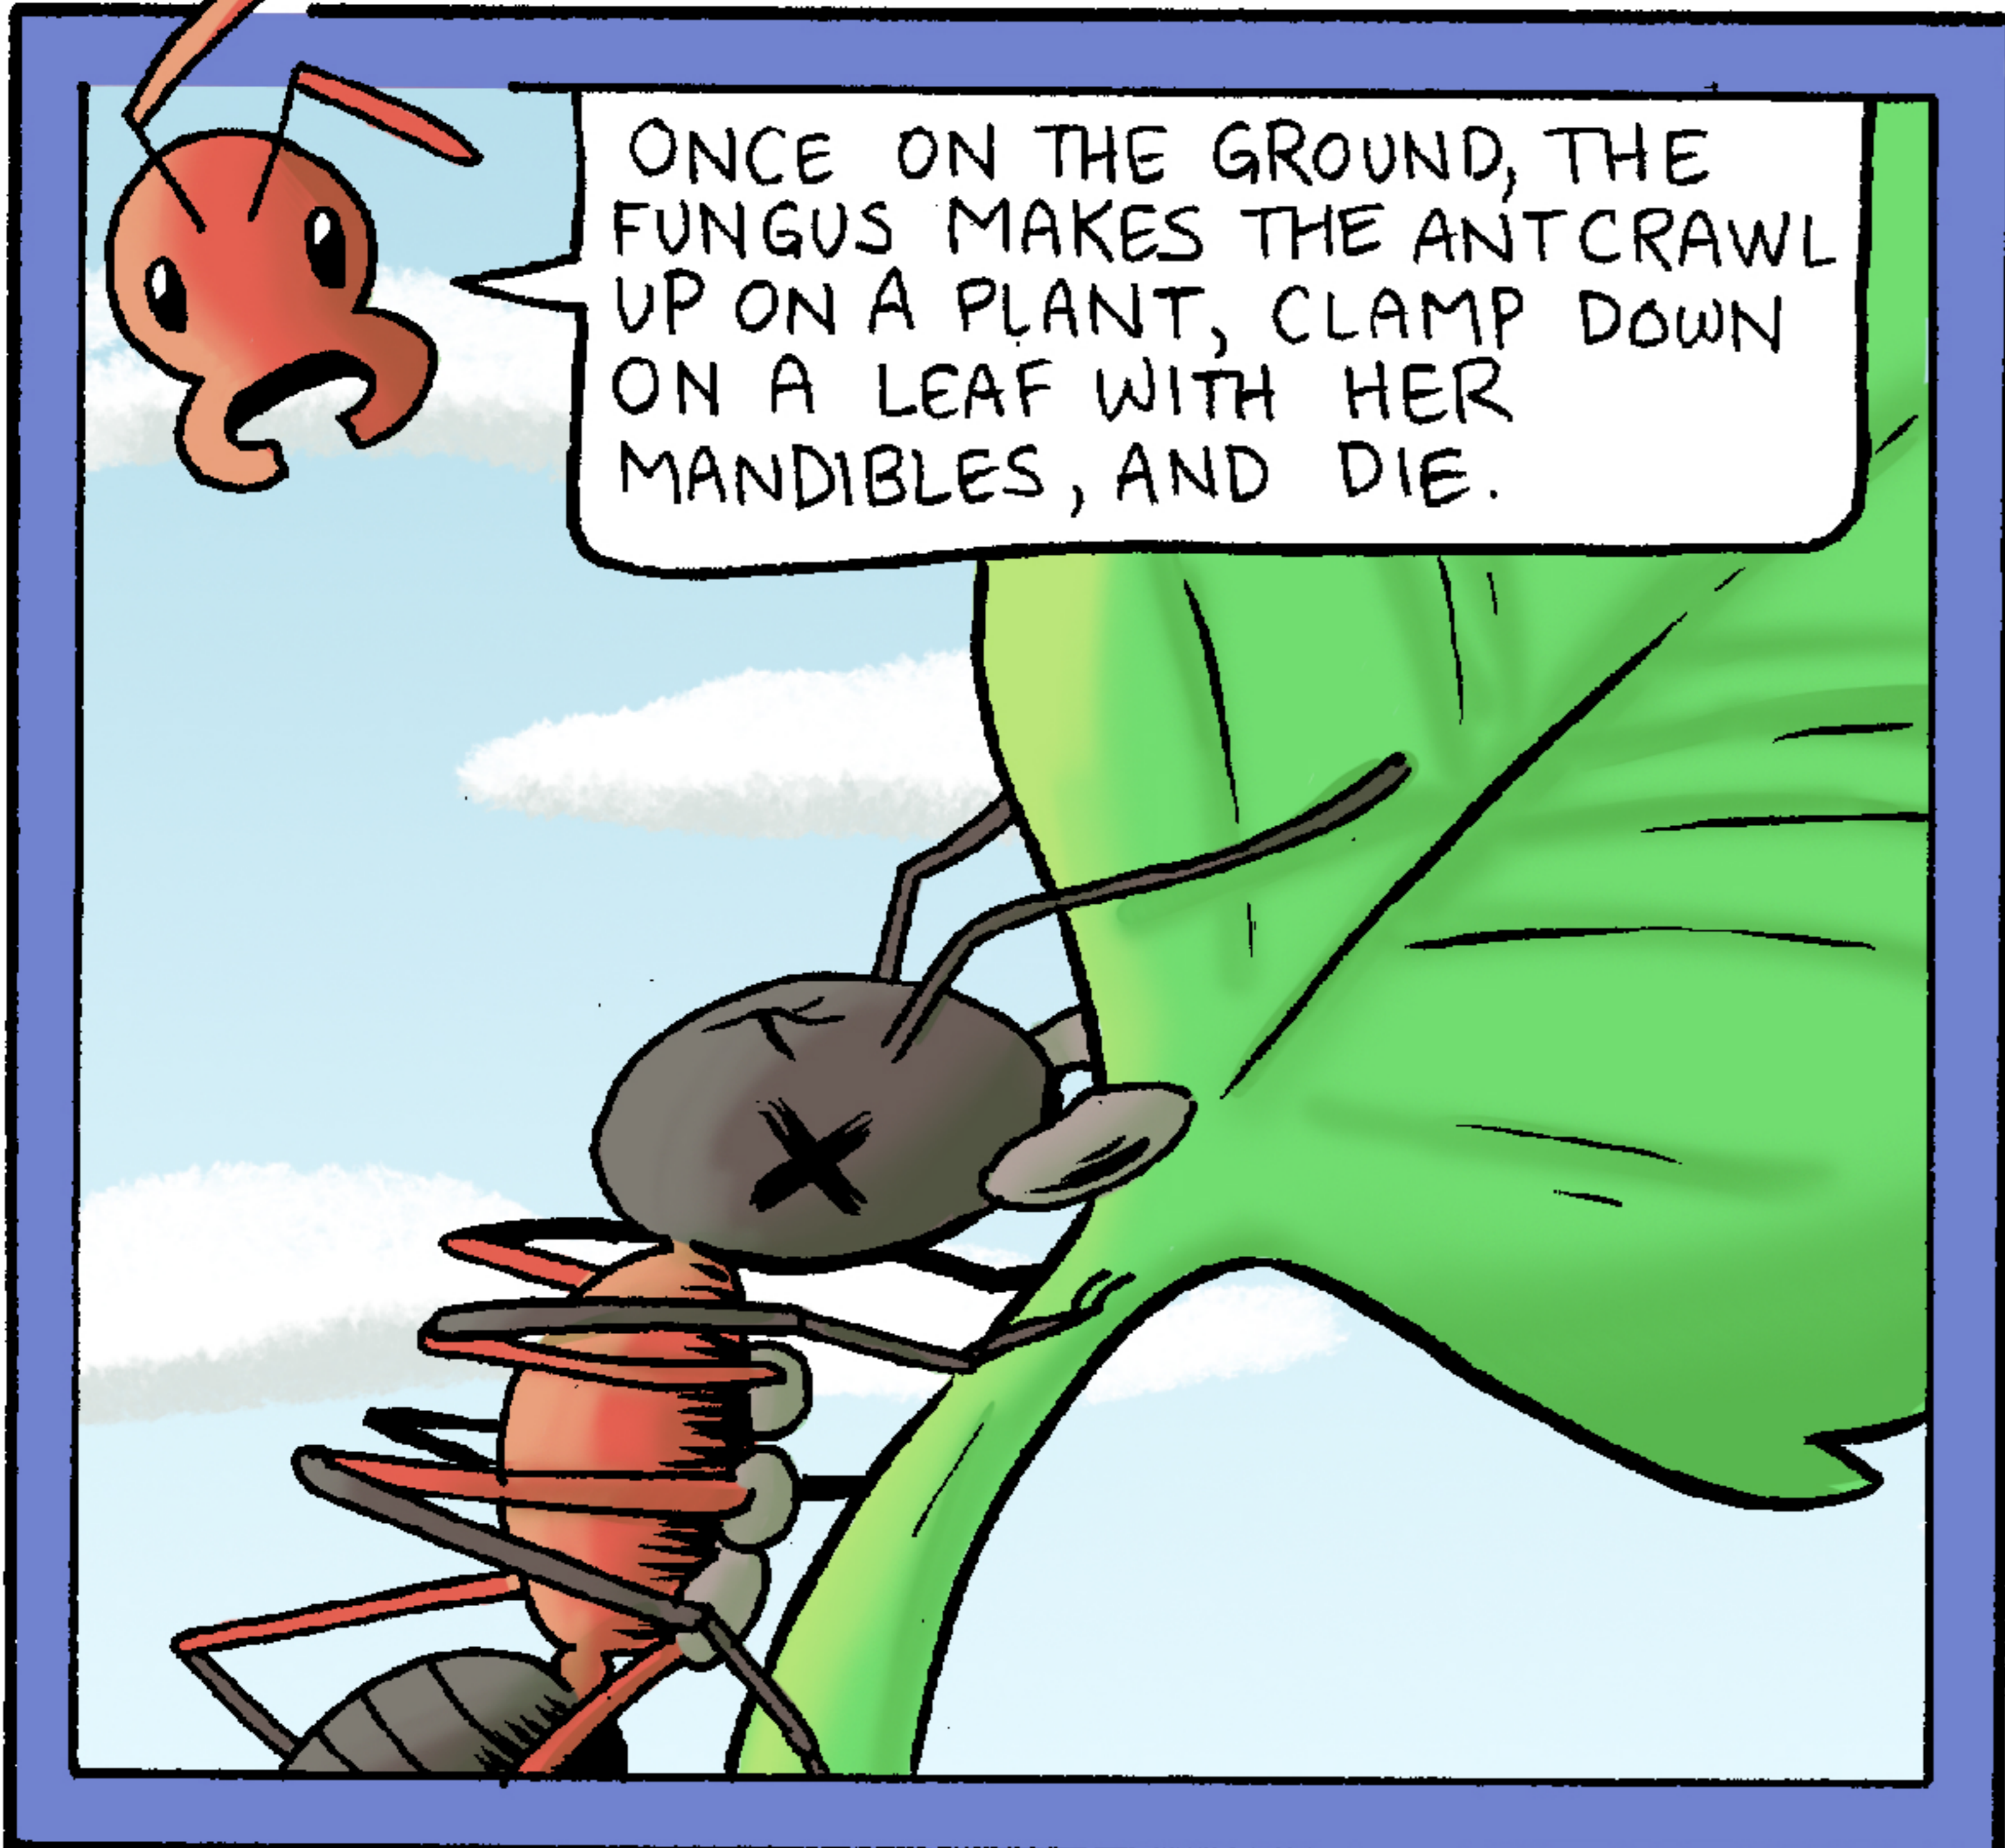

RRRR

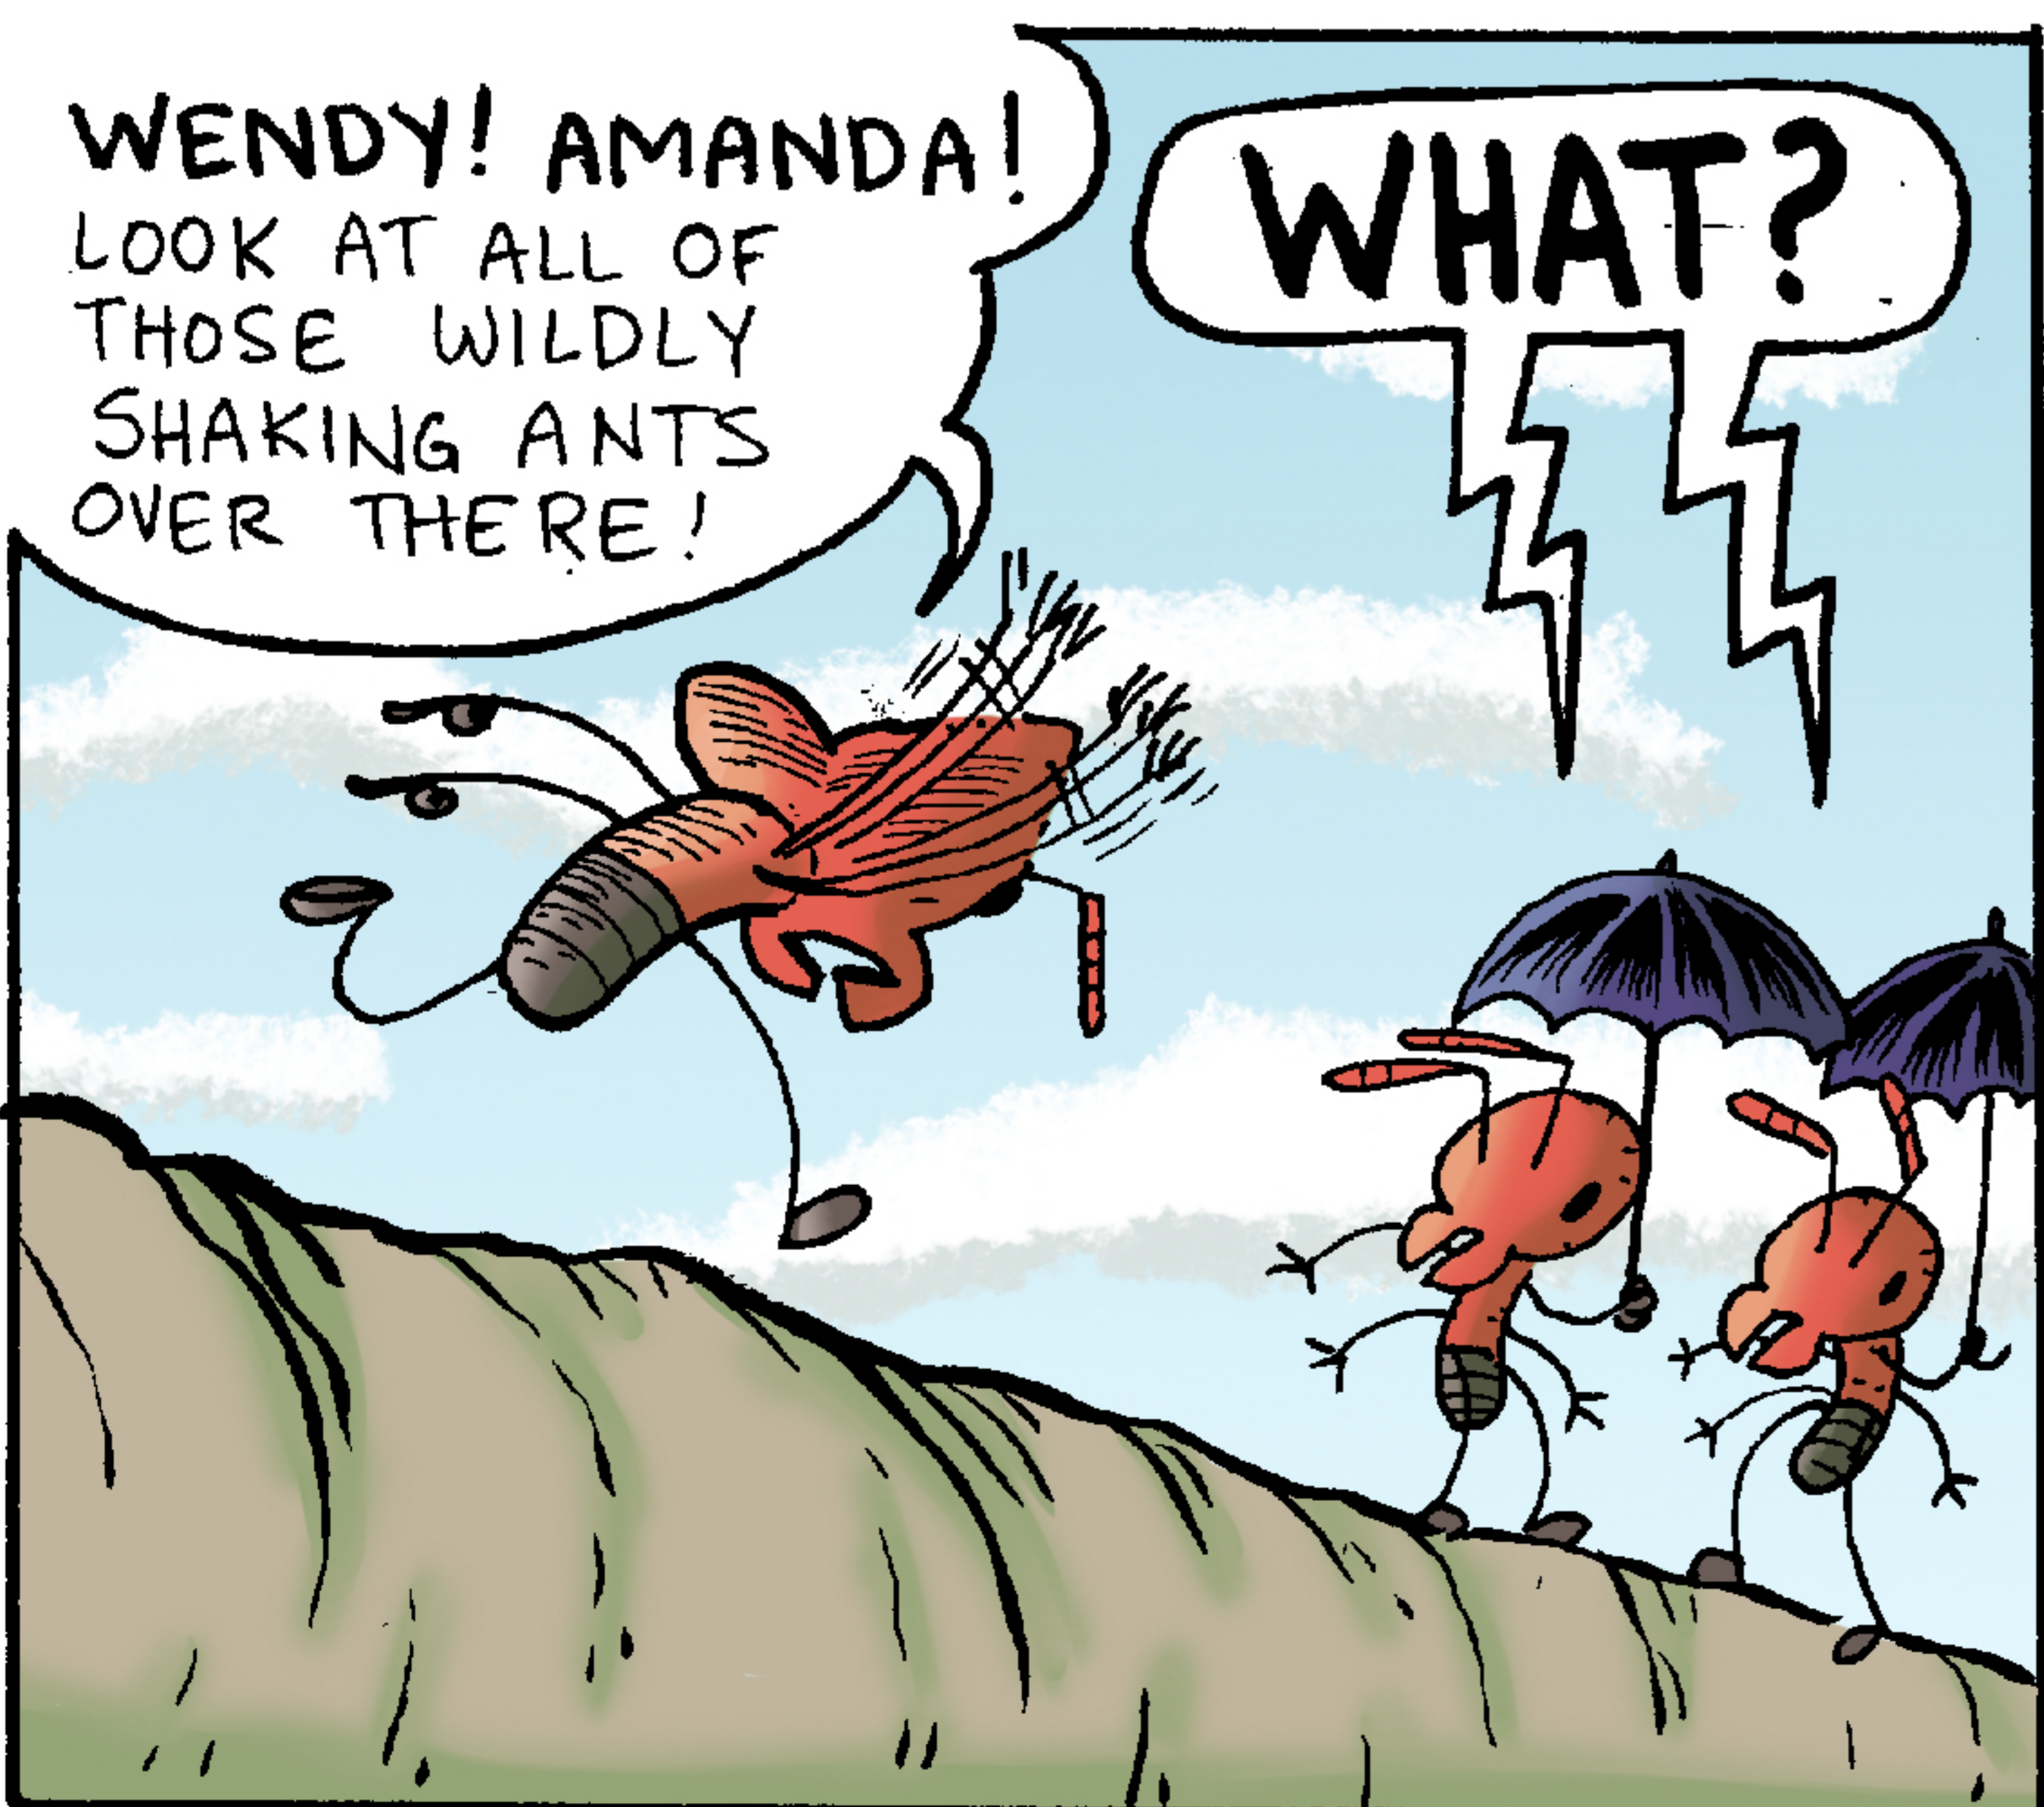

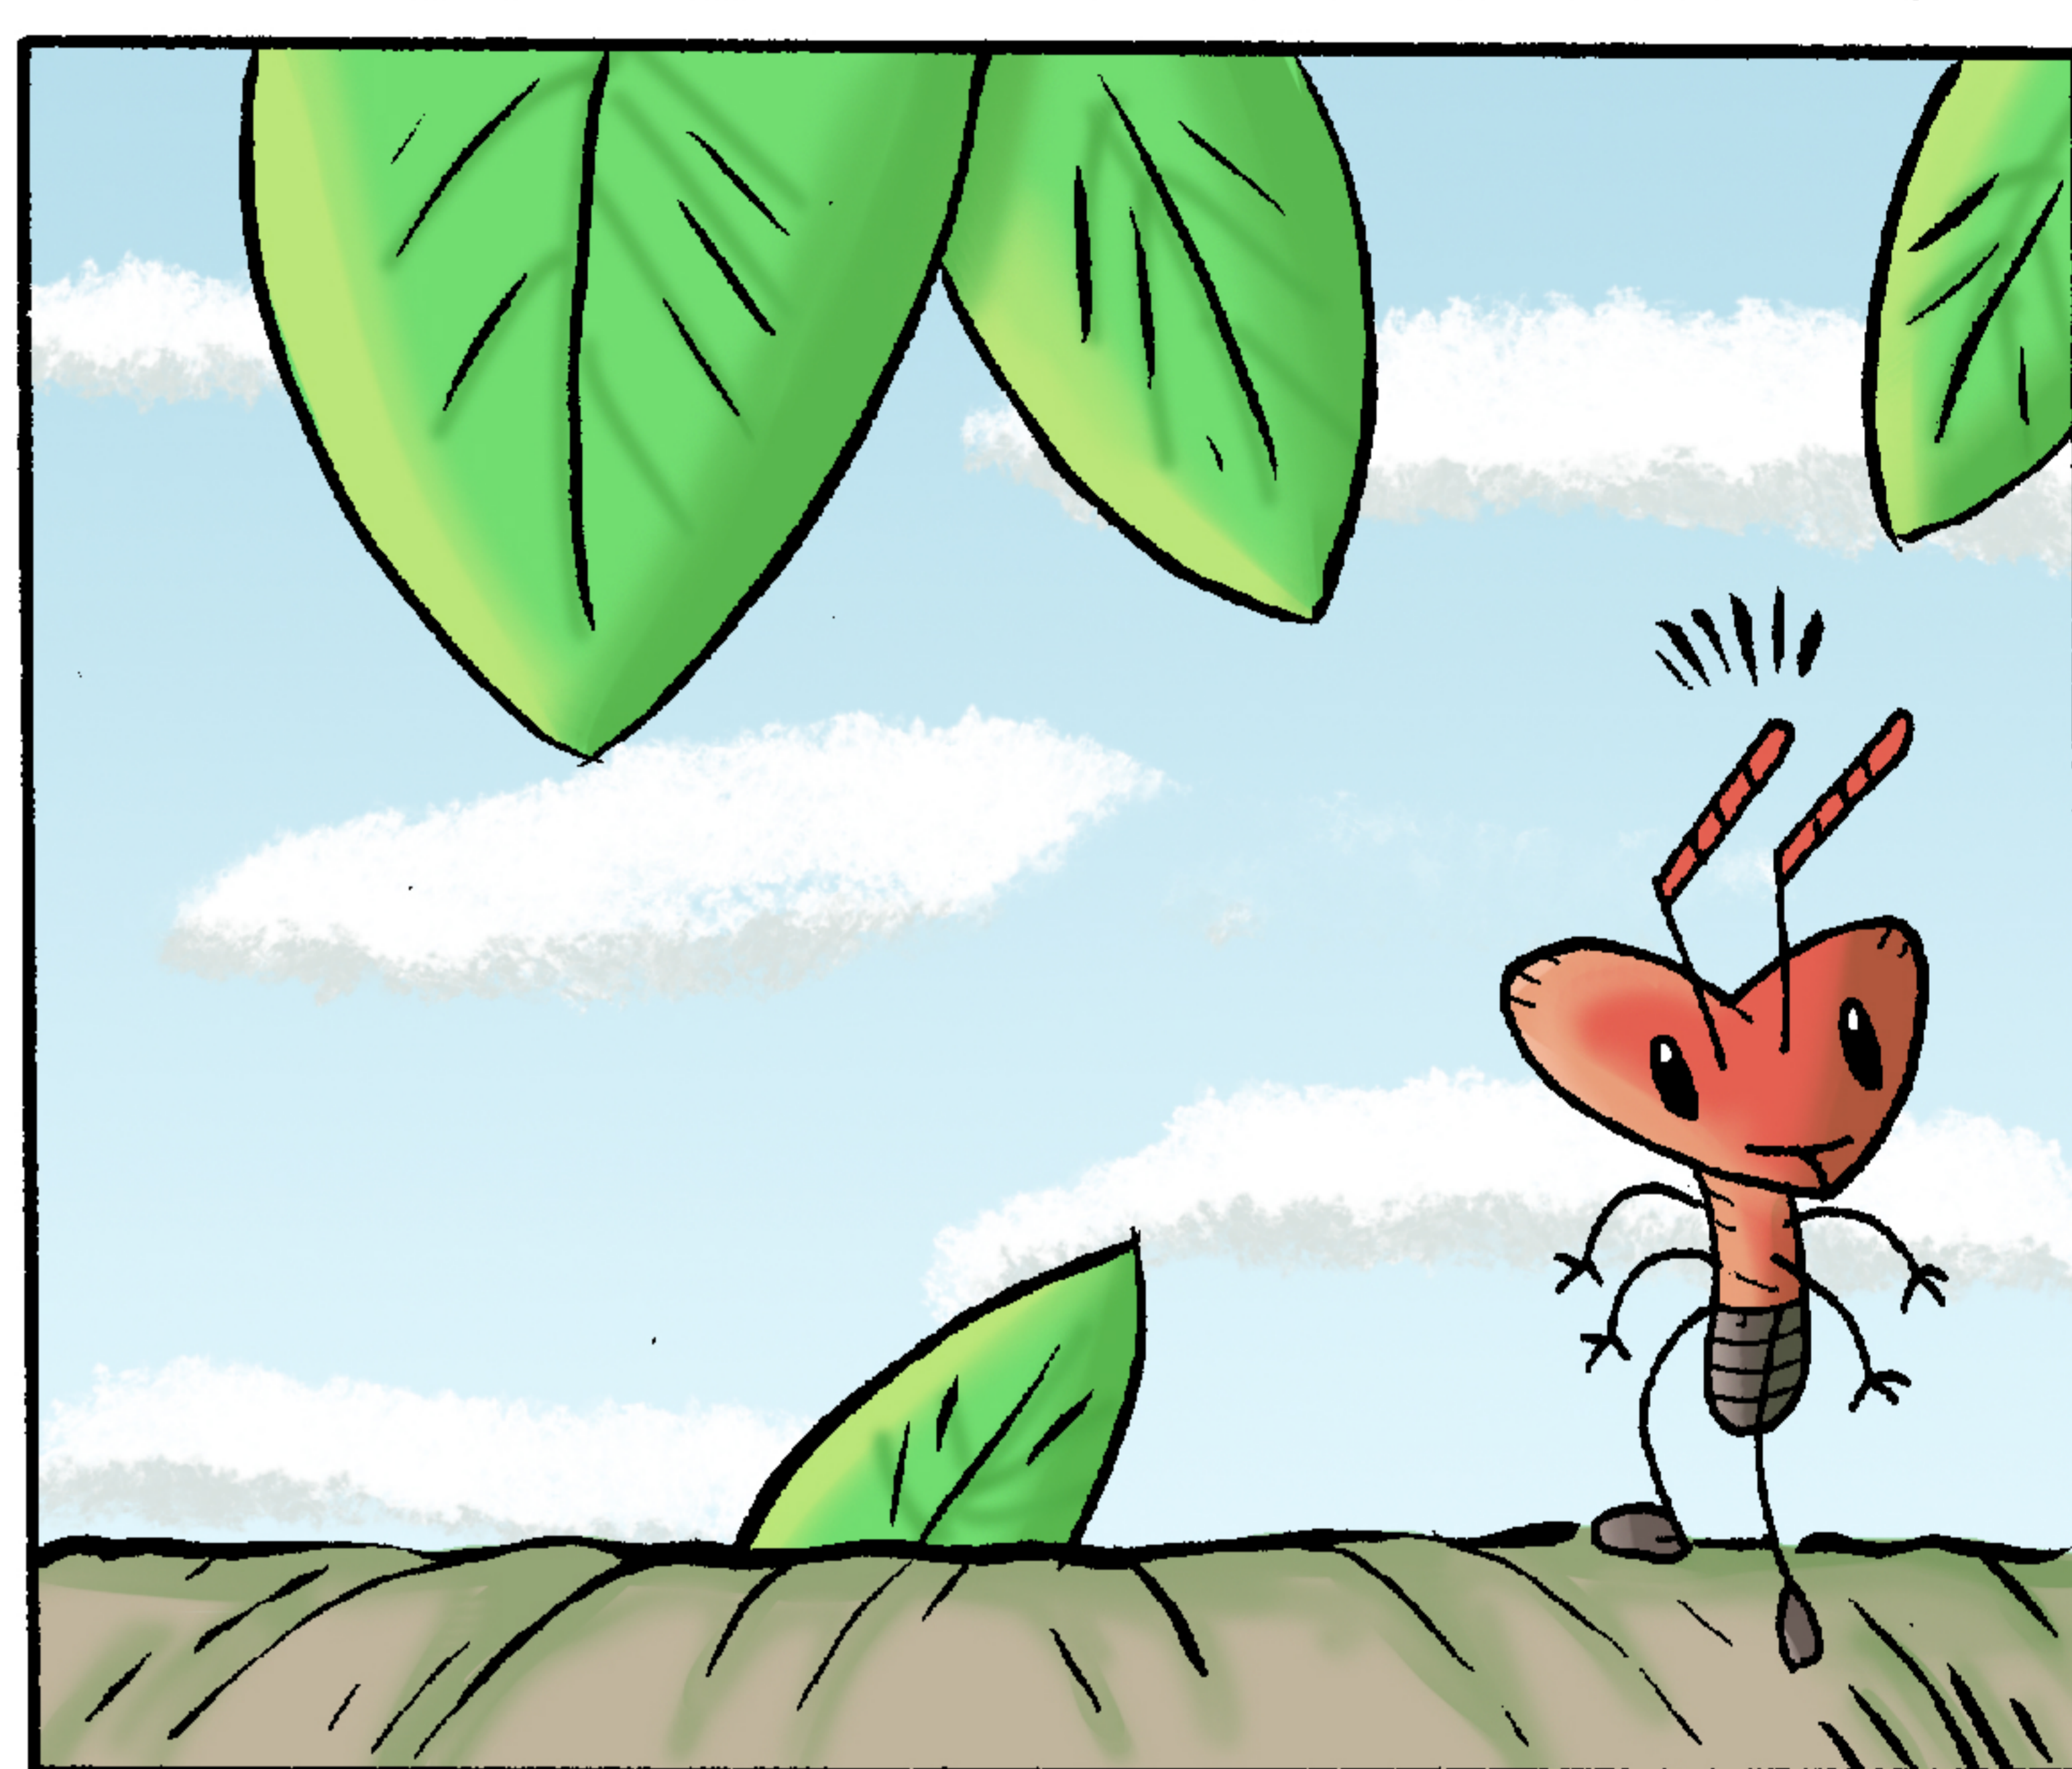

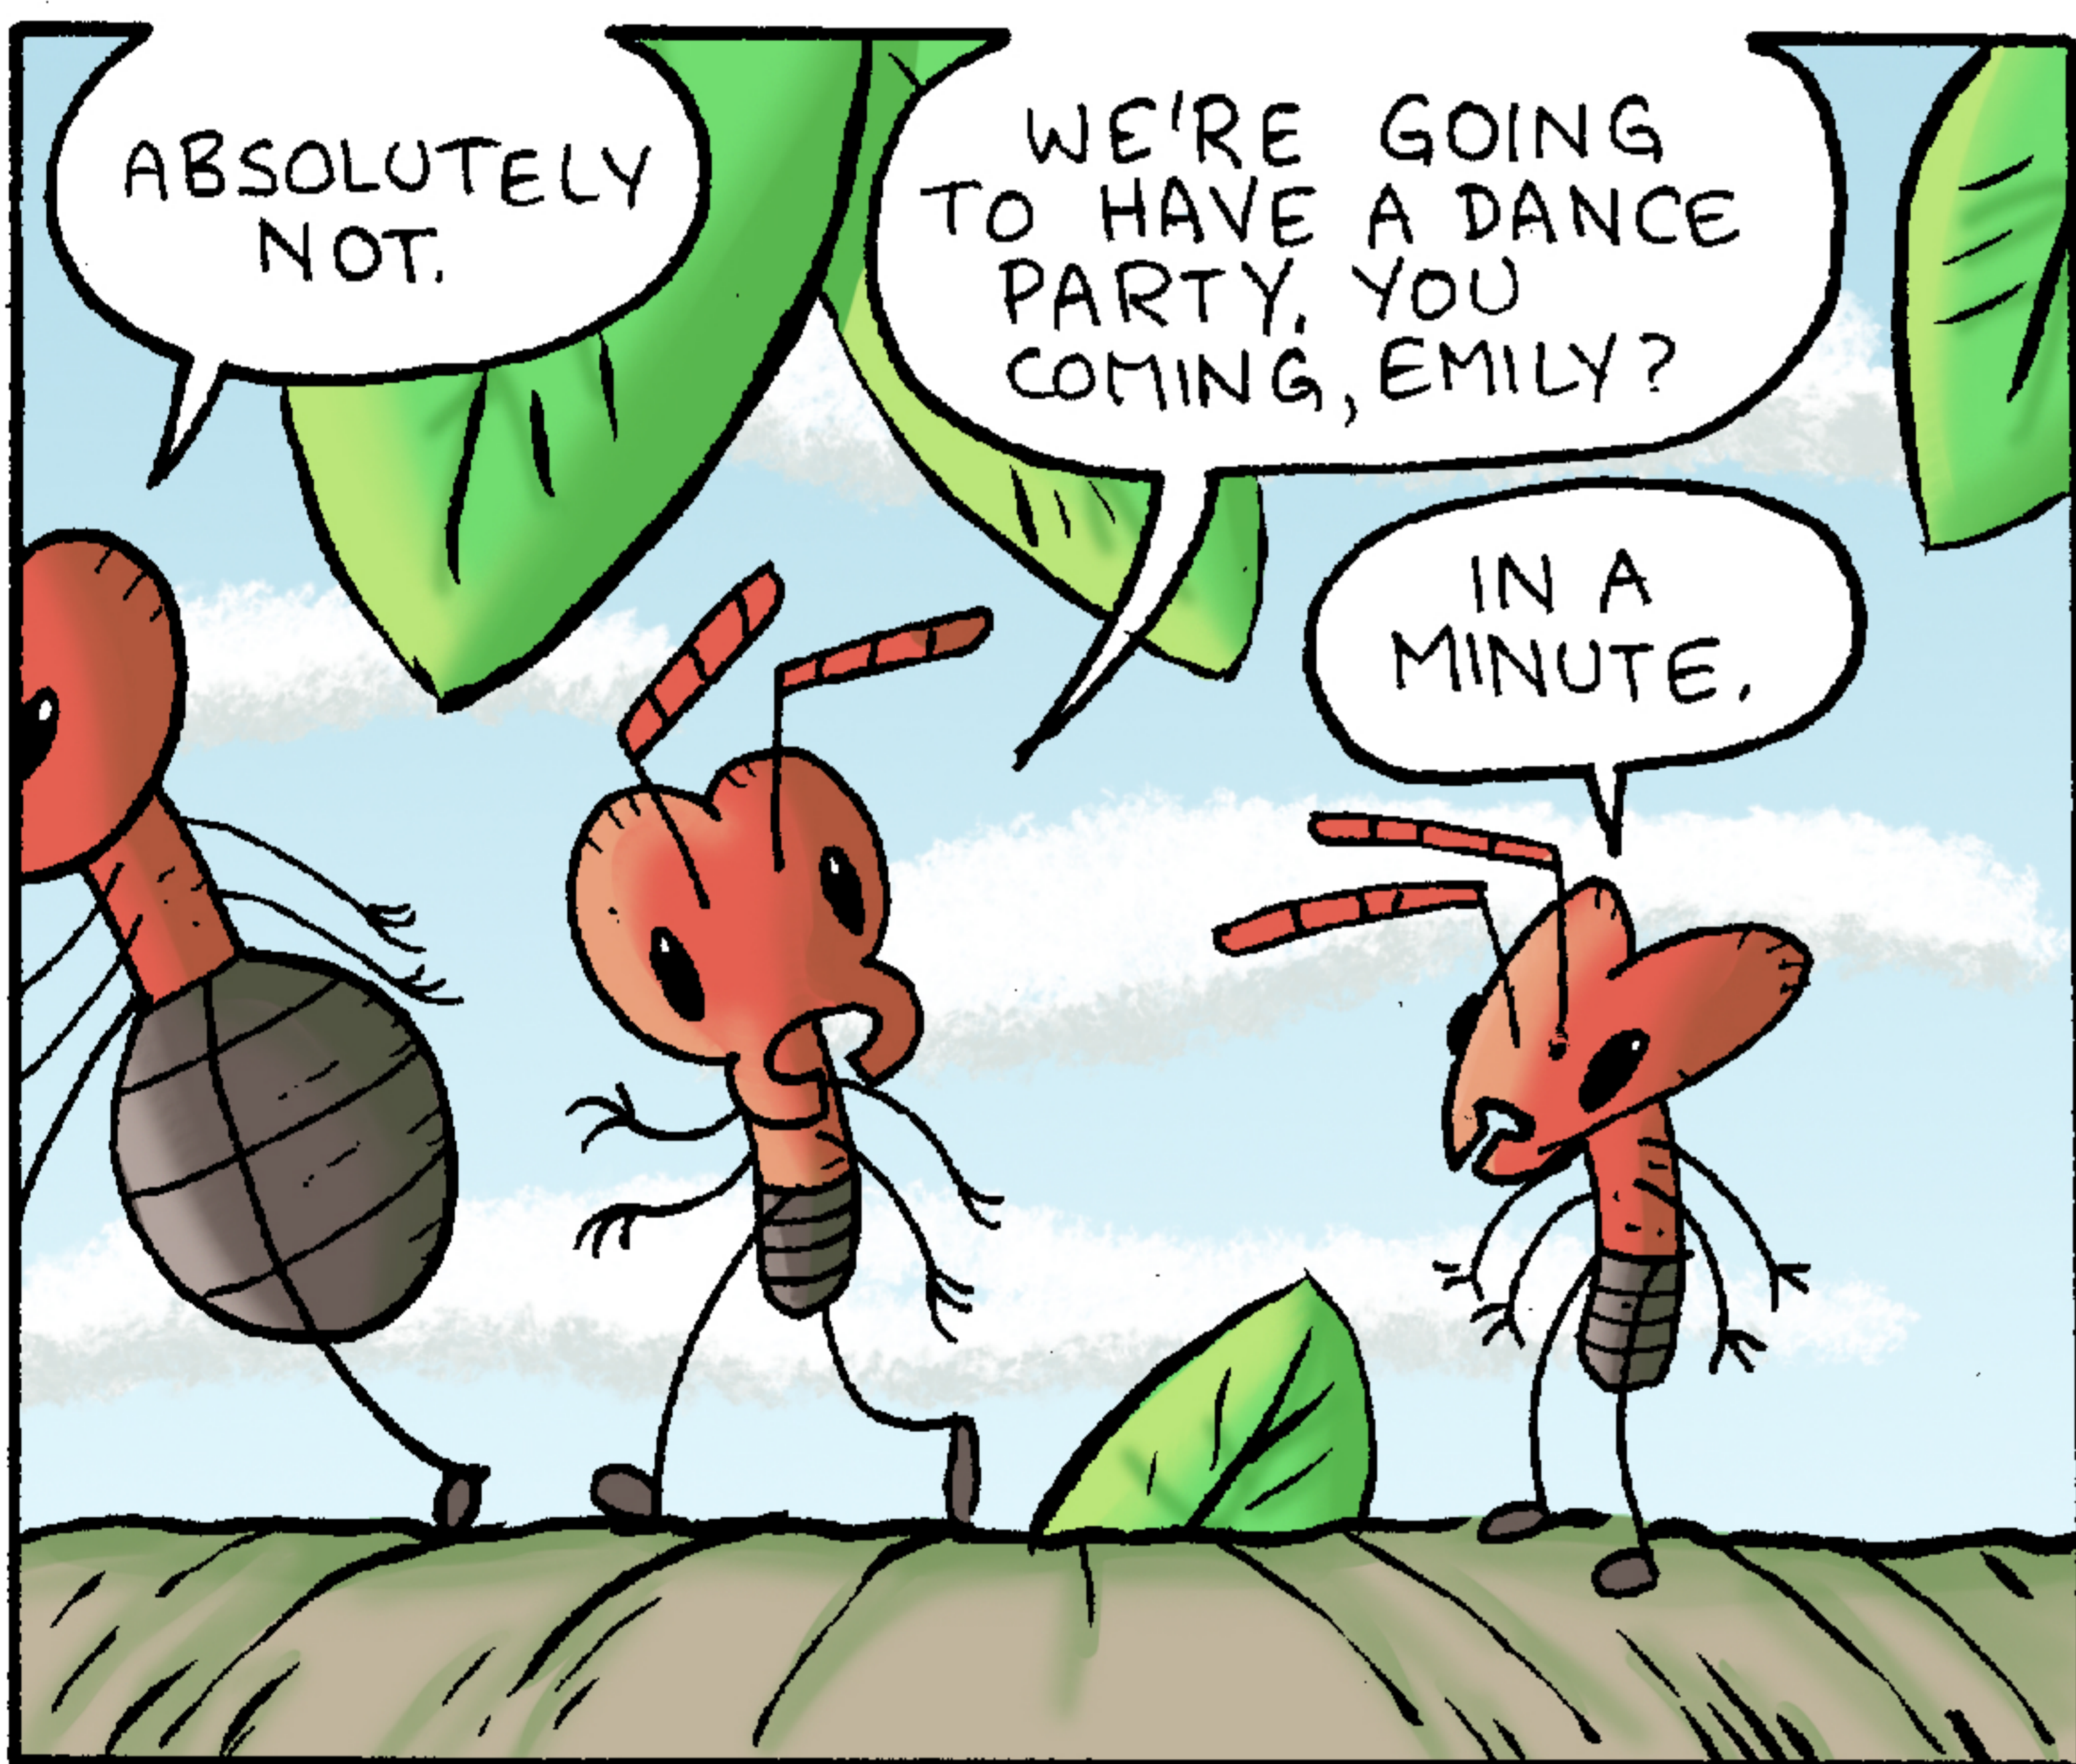

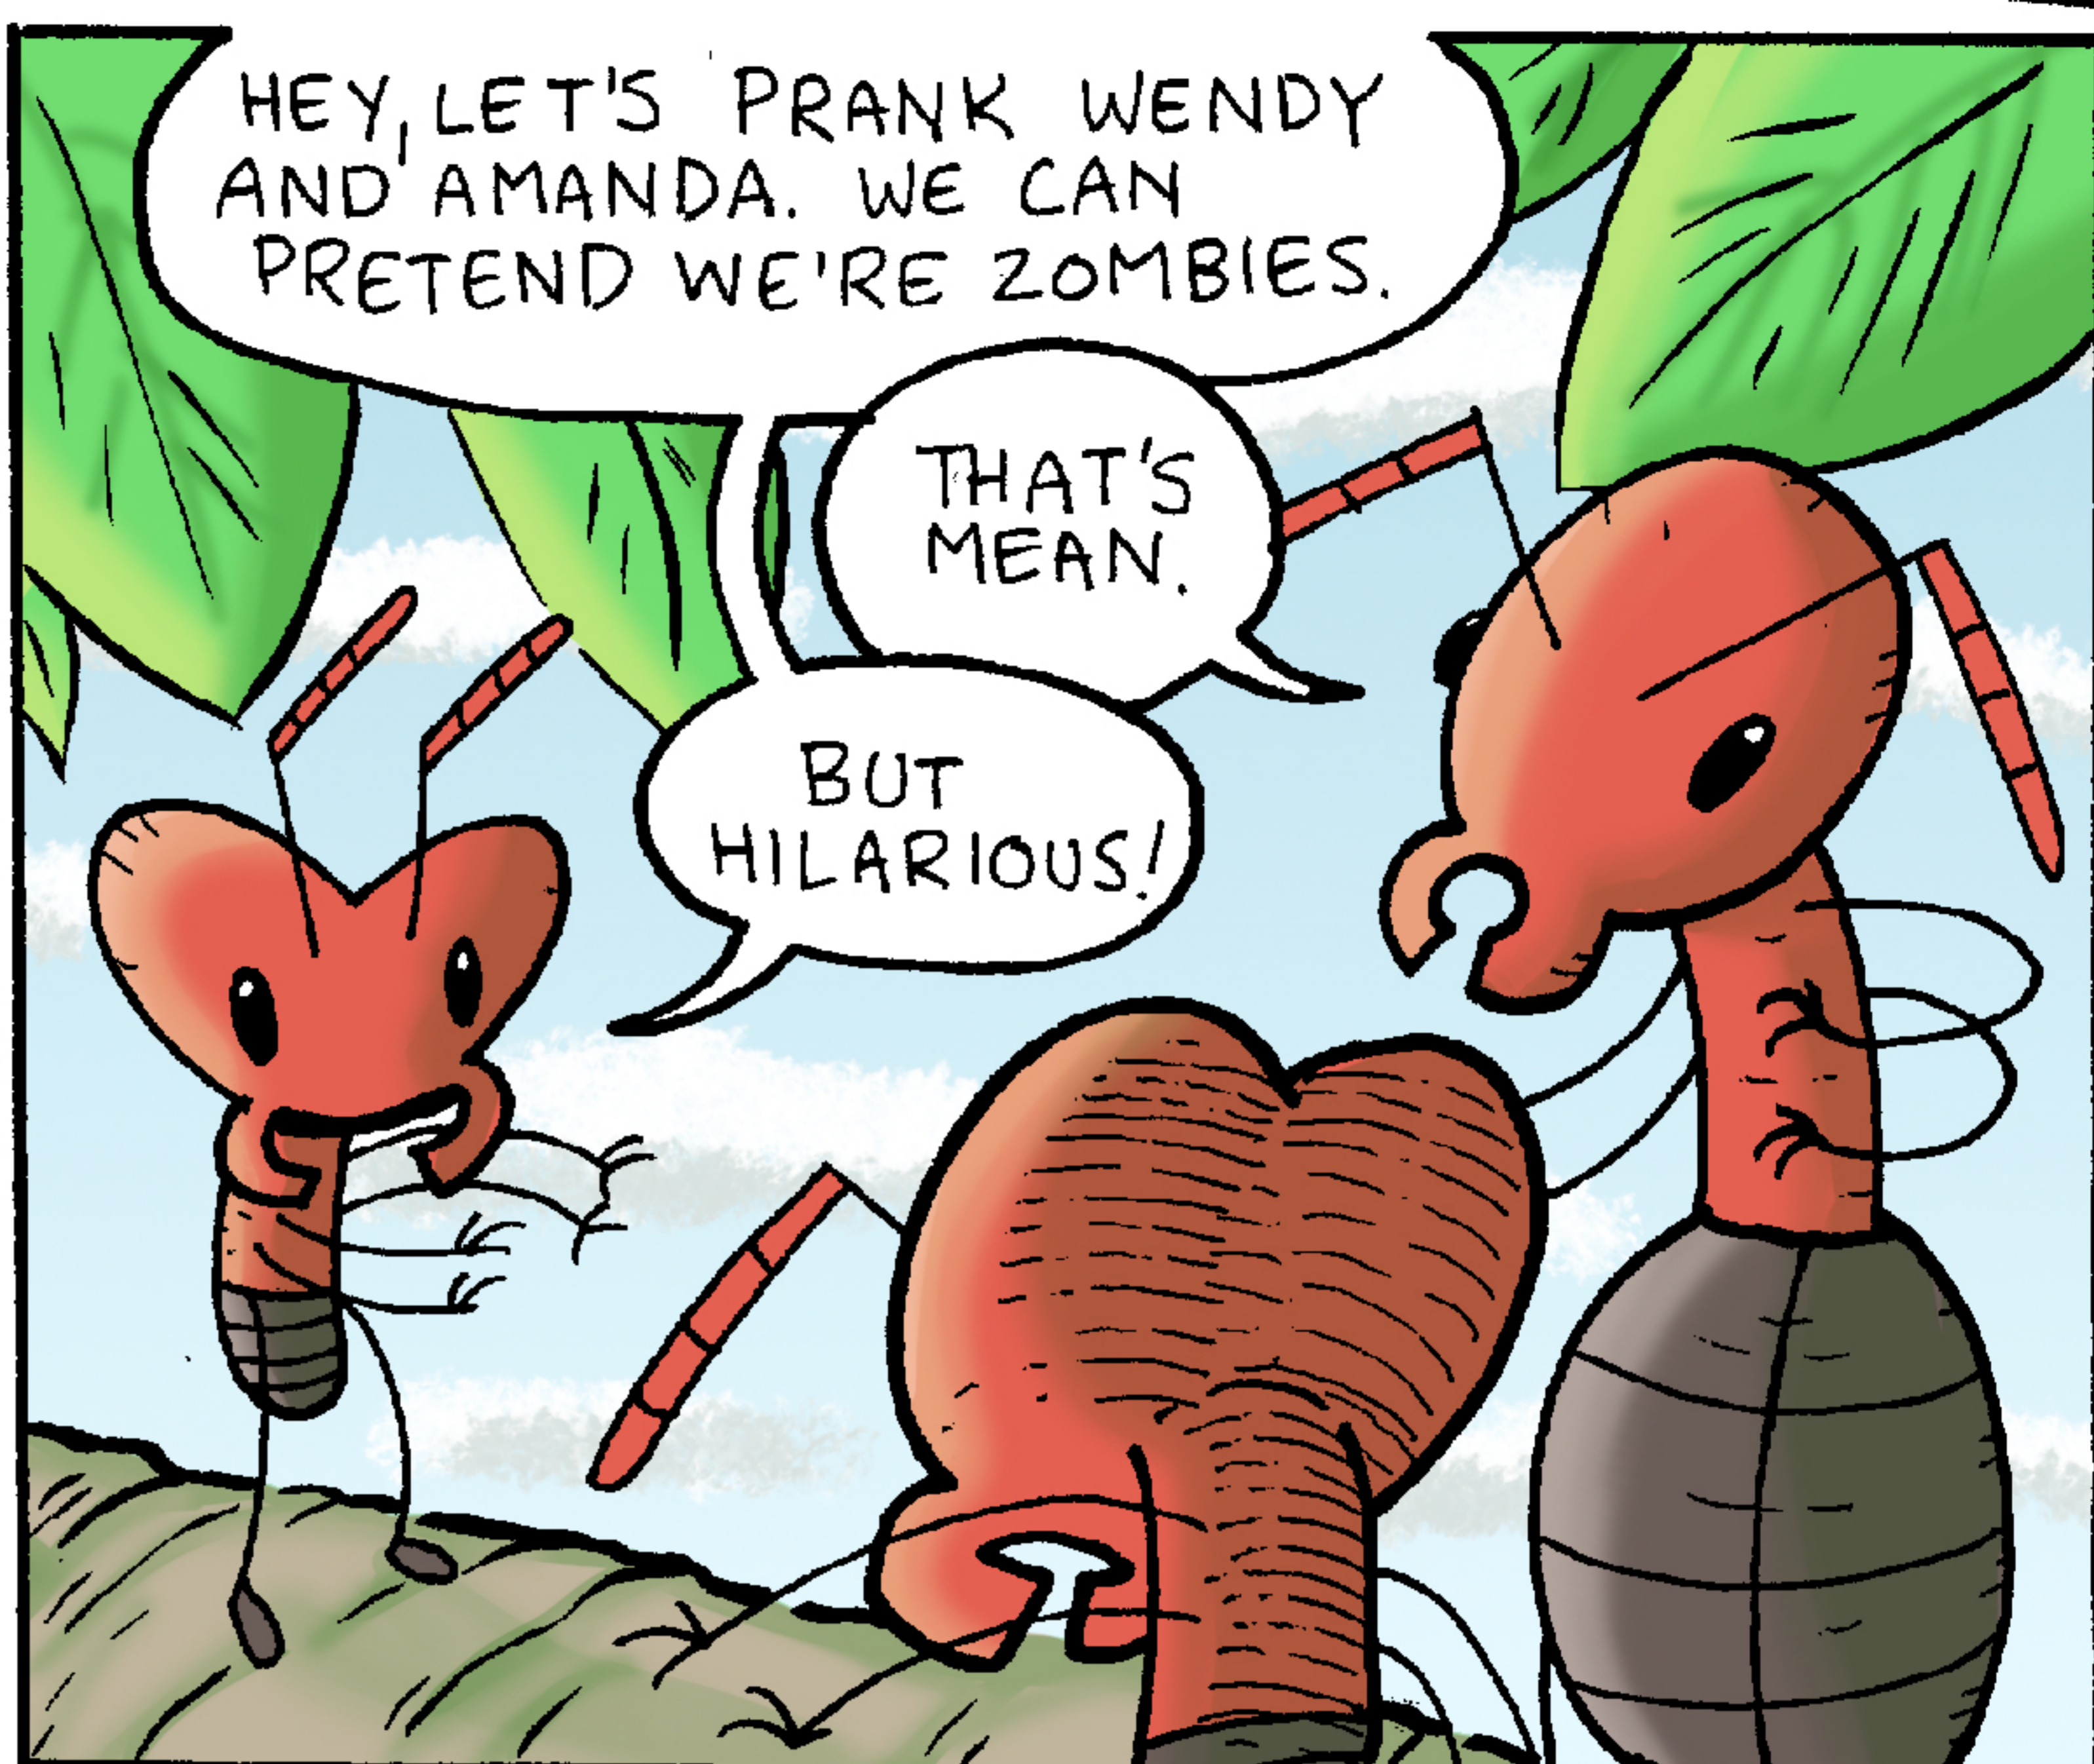

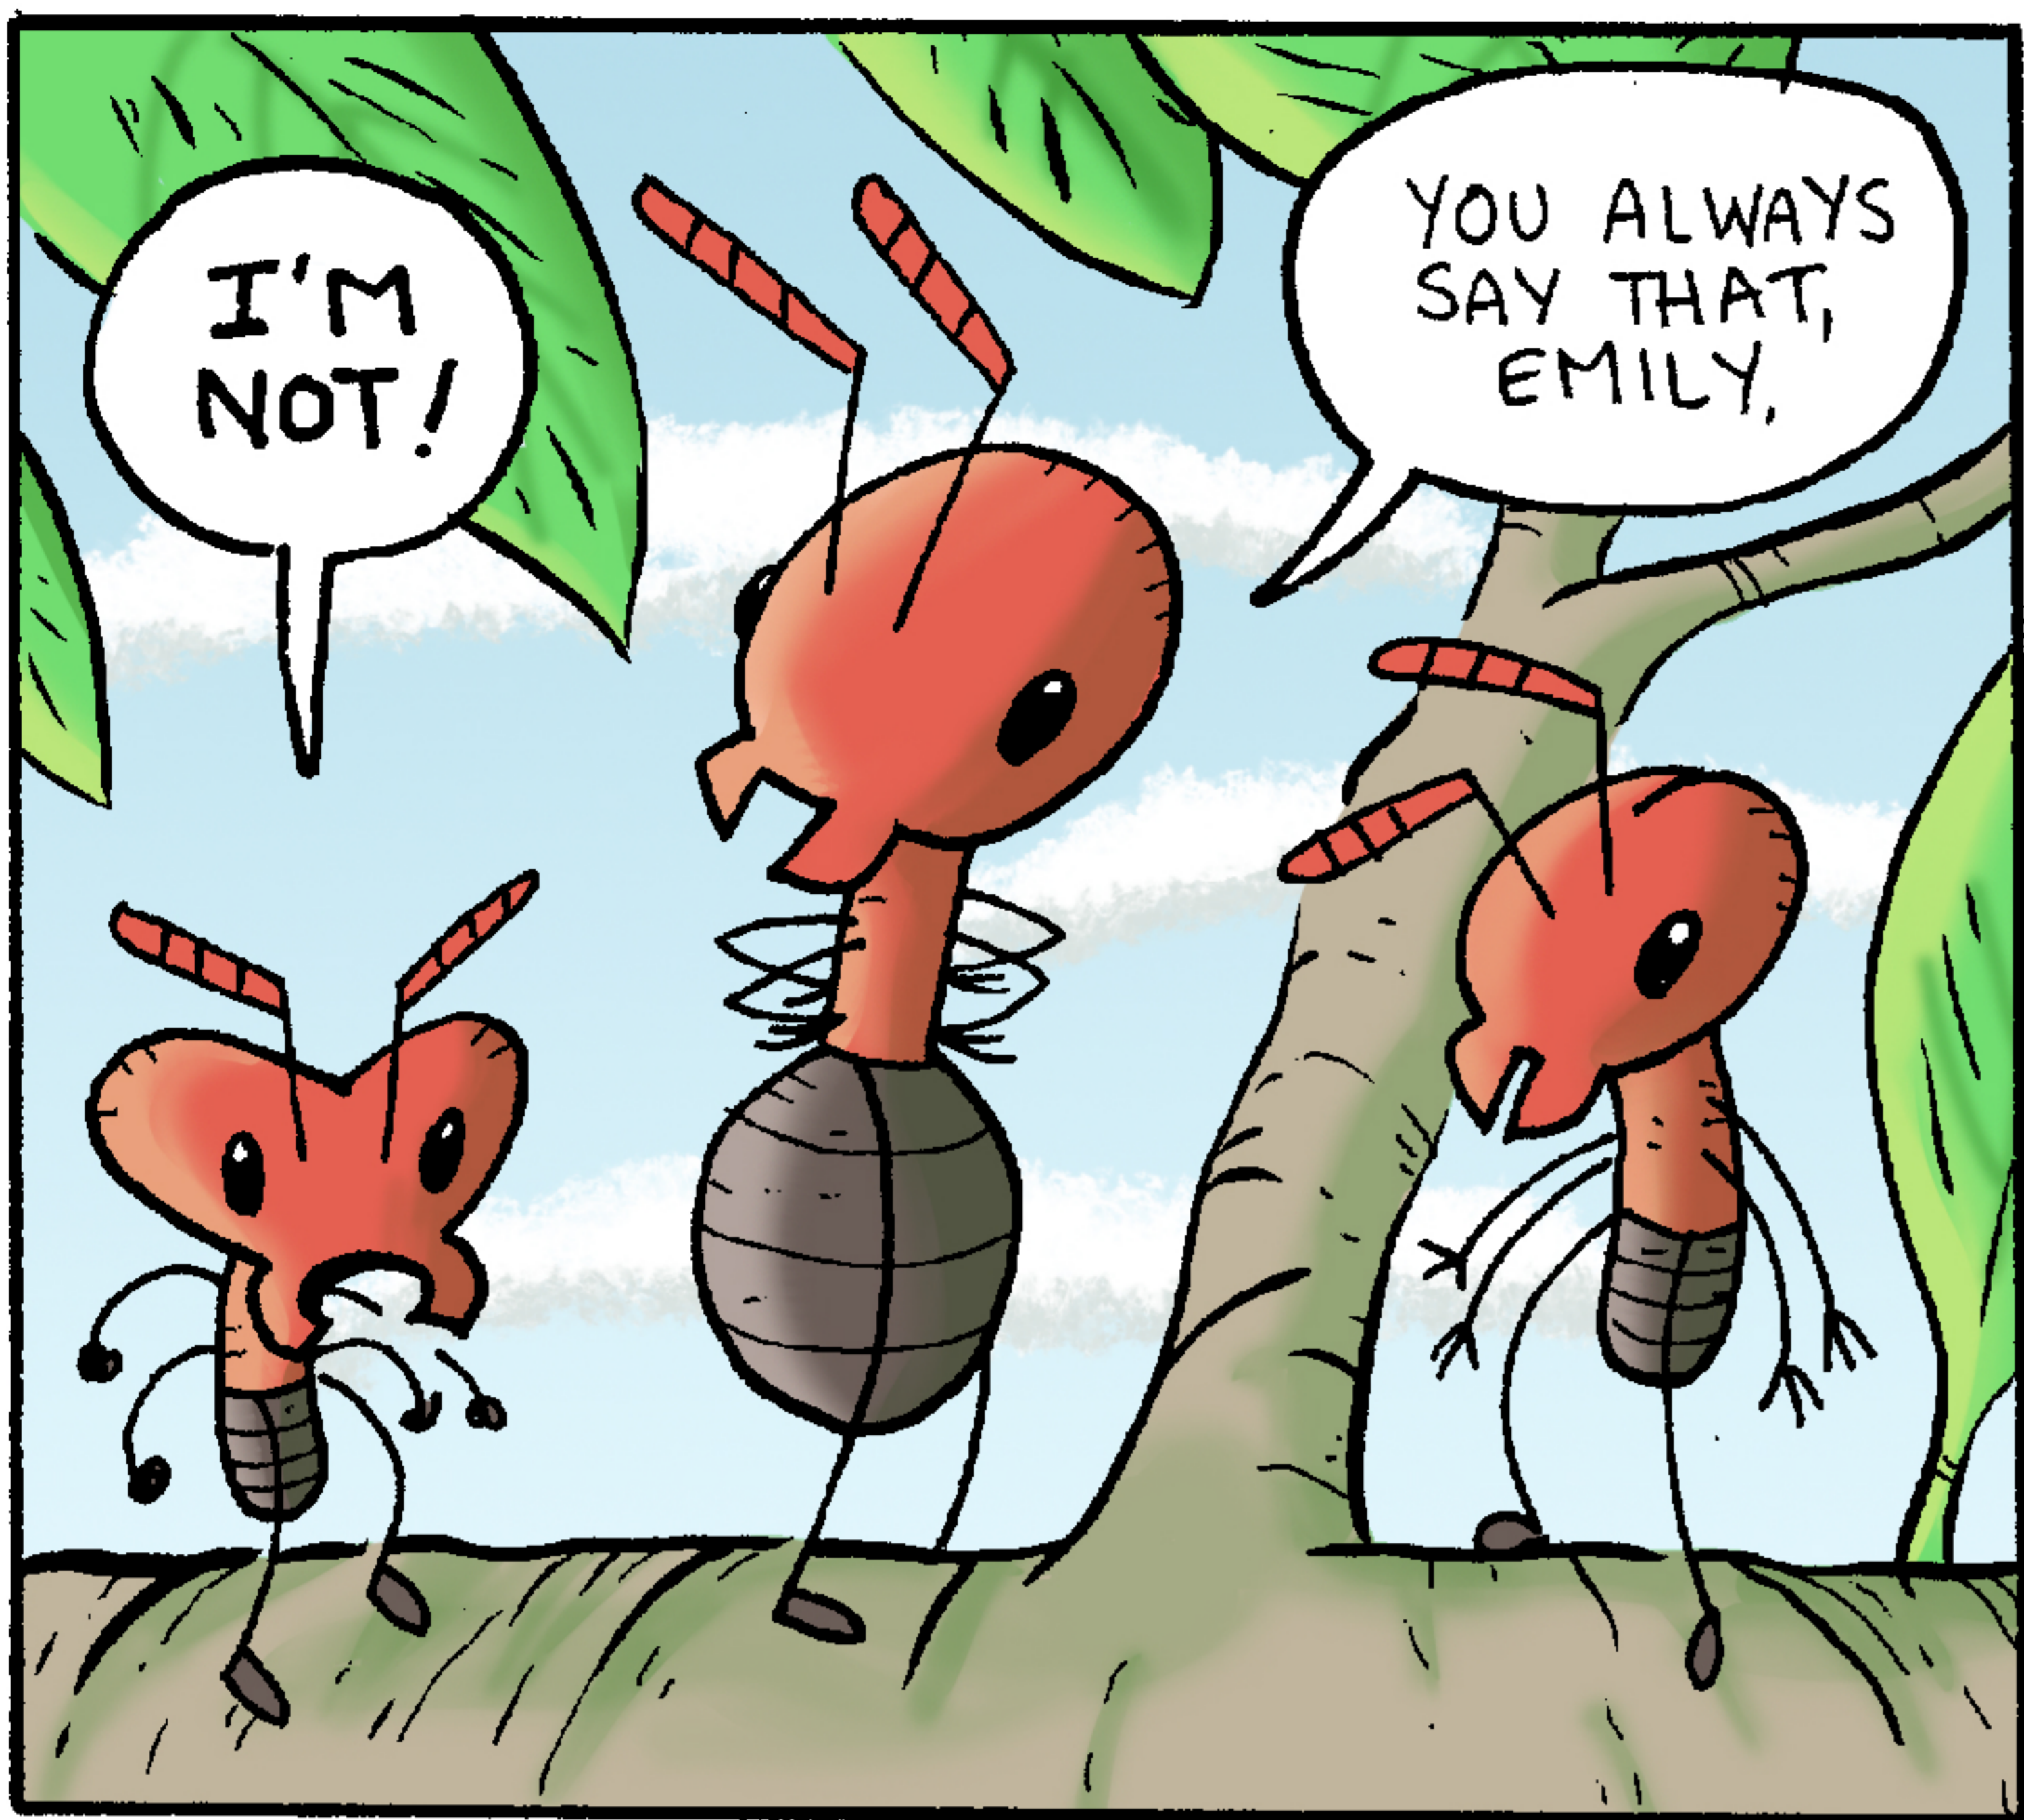

OOOPS!

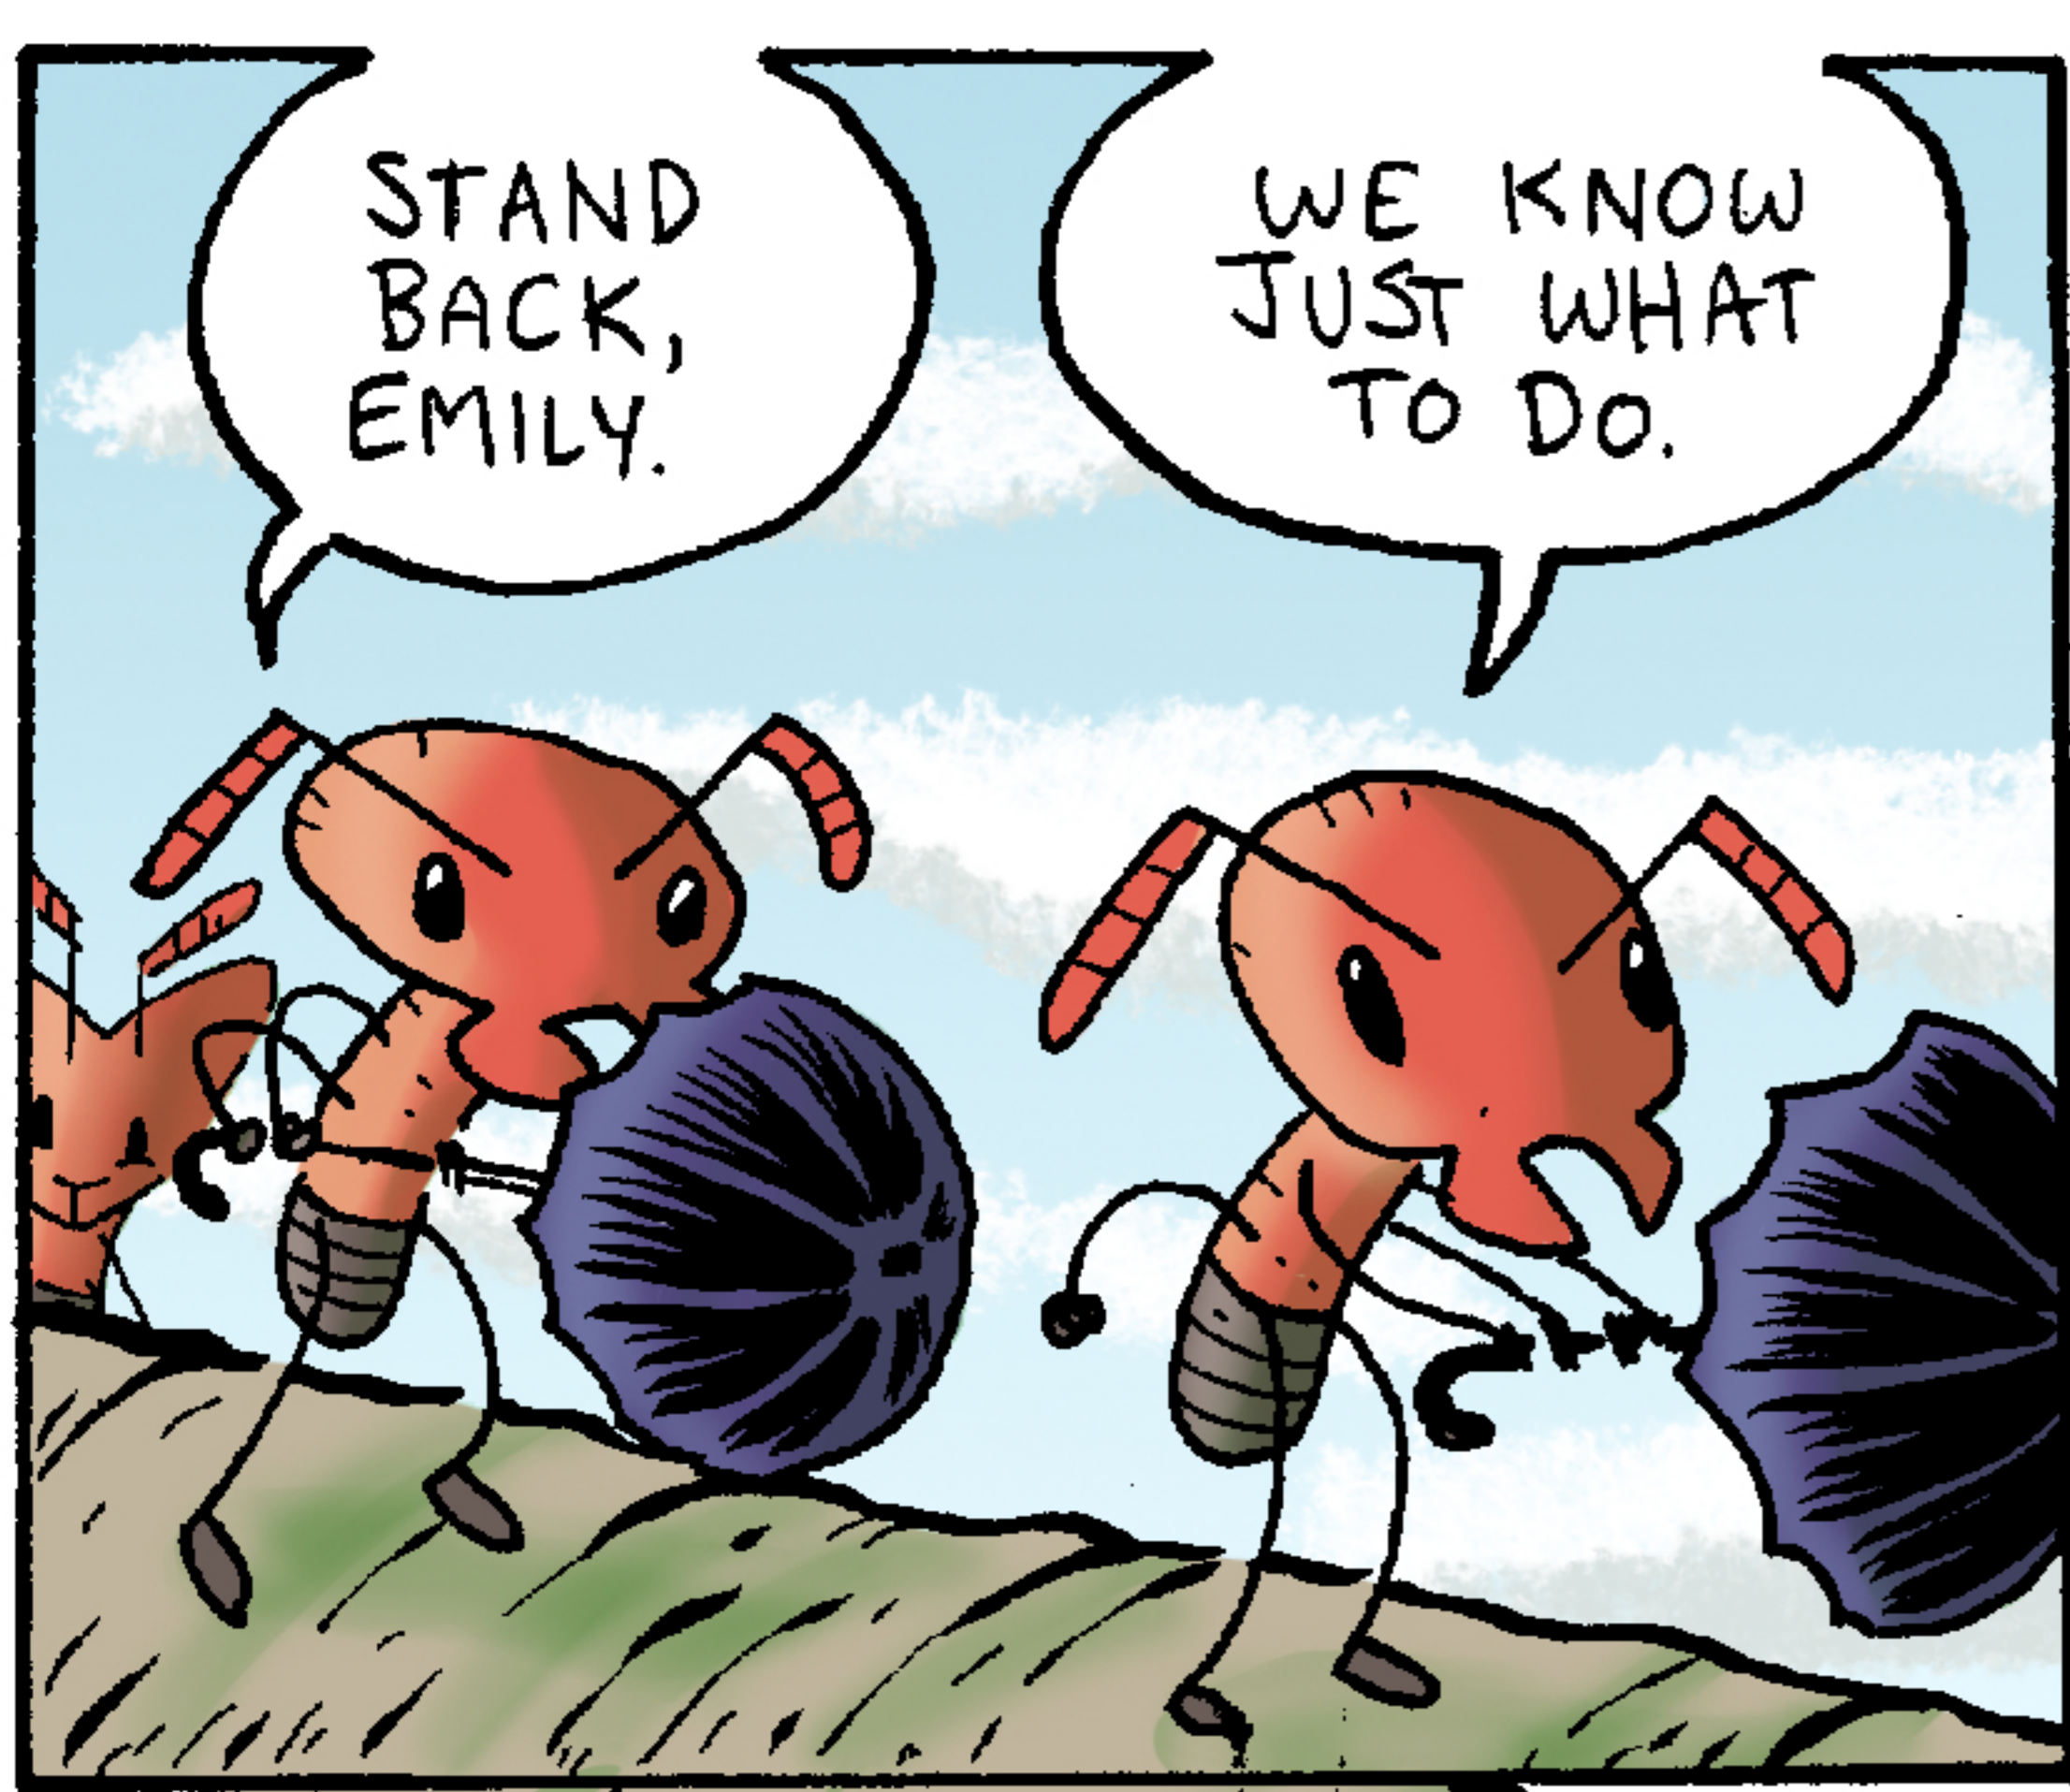

OUCH! THEY FALL TO THEIR DEATHS?

NOT EXACTLY. ANTS ARE SO LIGHT WE DON'T HIT THE GROUND HARD ENOUGH TO GET HURT.

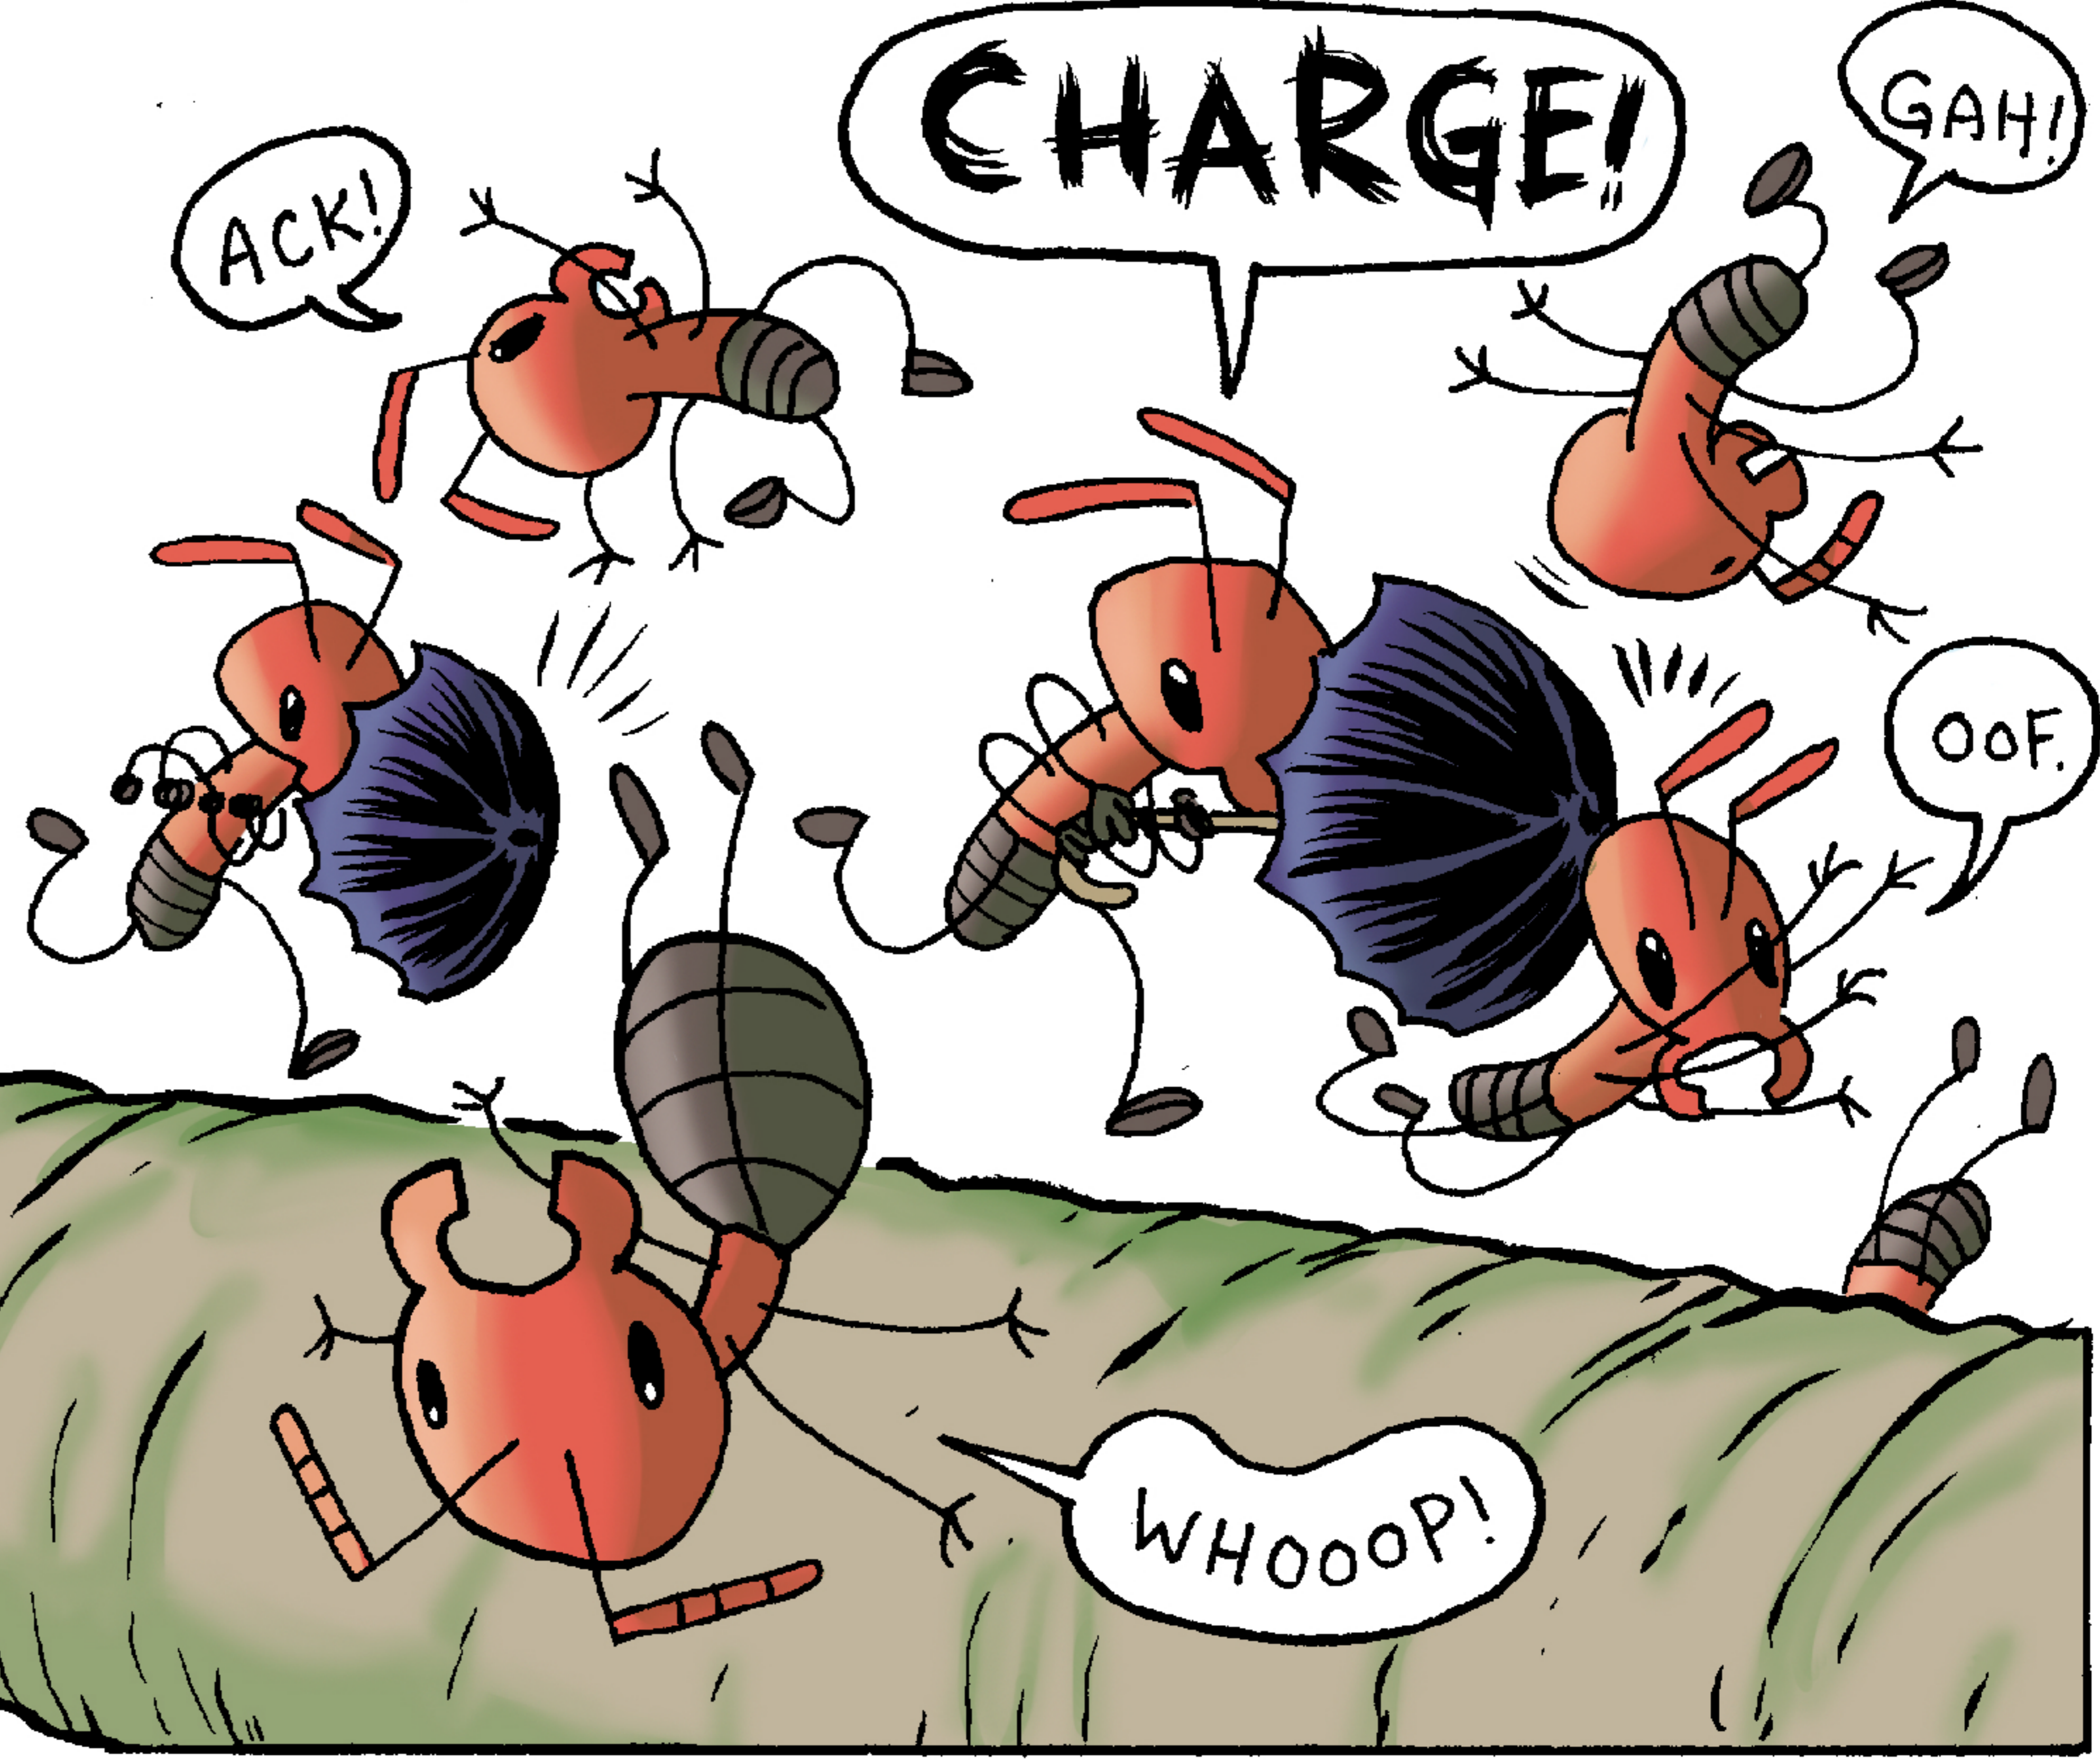

STAND BACK, EMILY.

WE KNOW JUST WHAT TO DO.

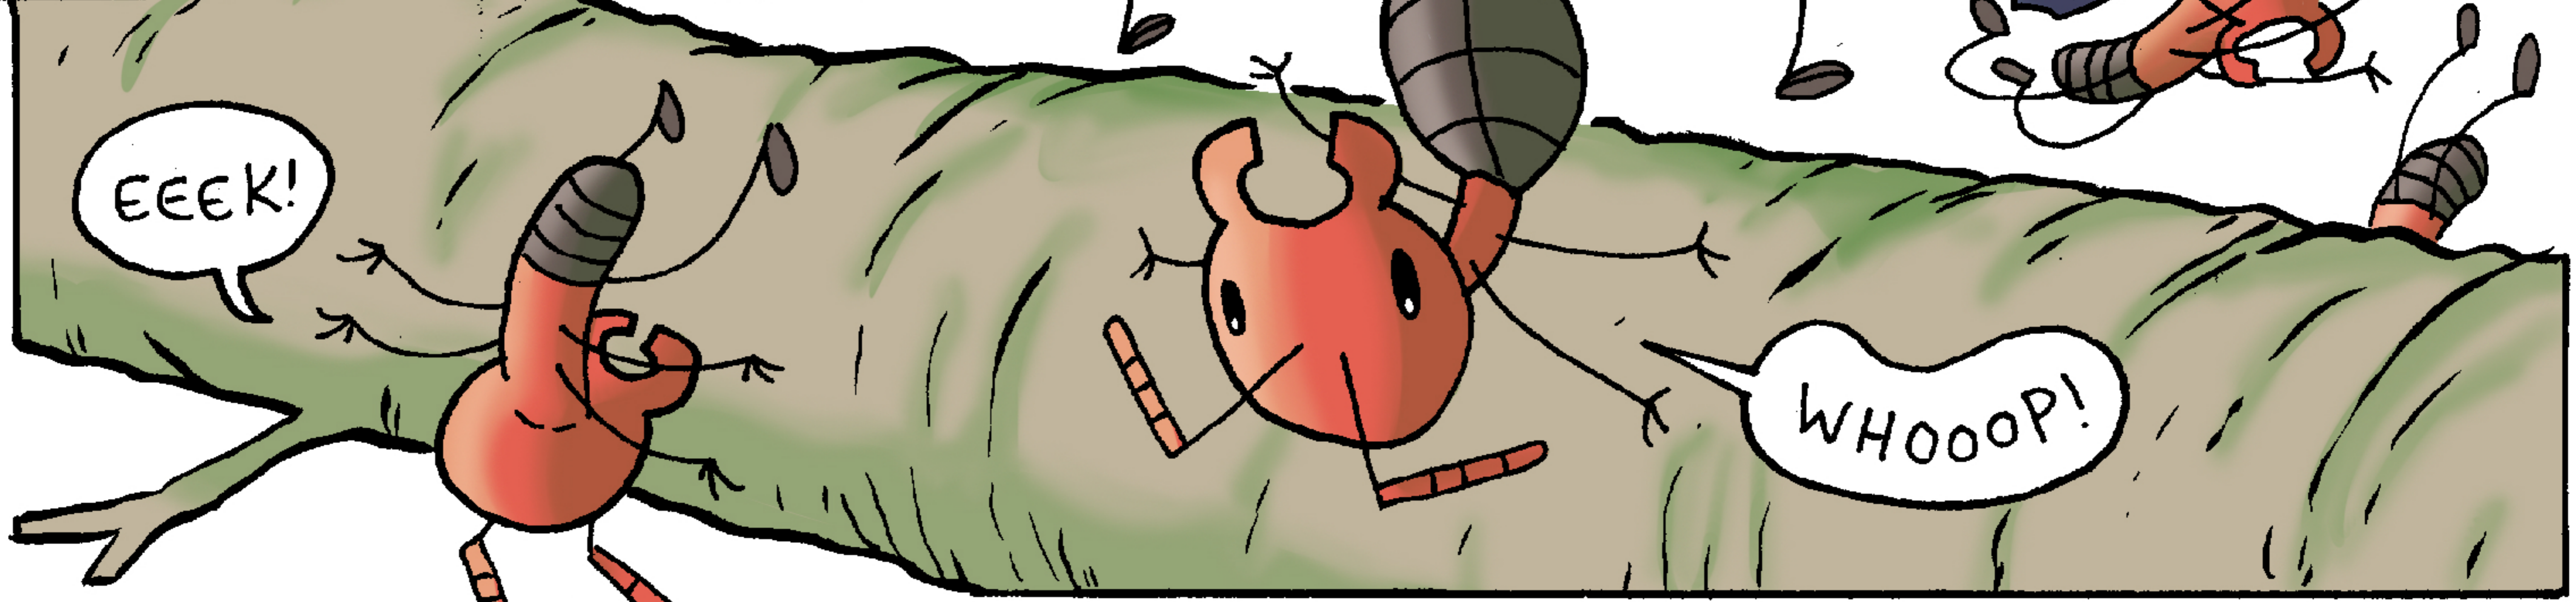

ACK!

CHARGE!

GAH!

OOF.

EEEK!

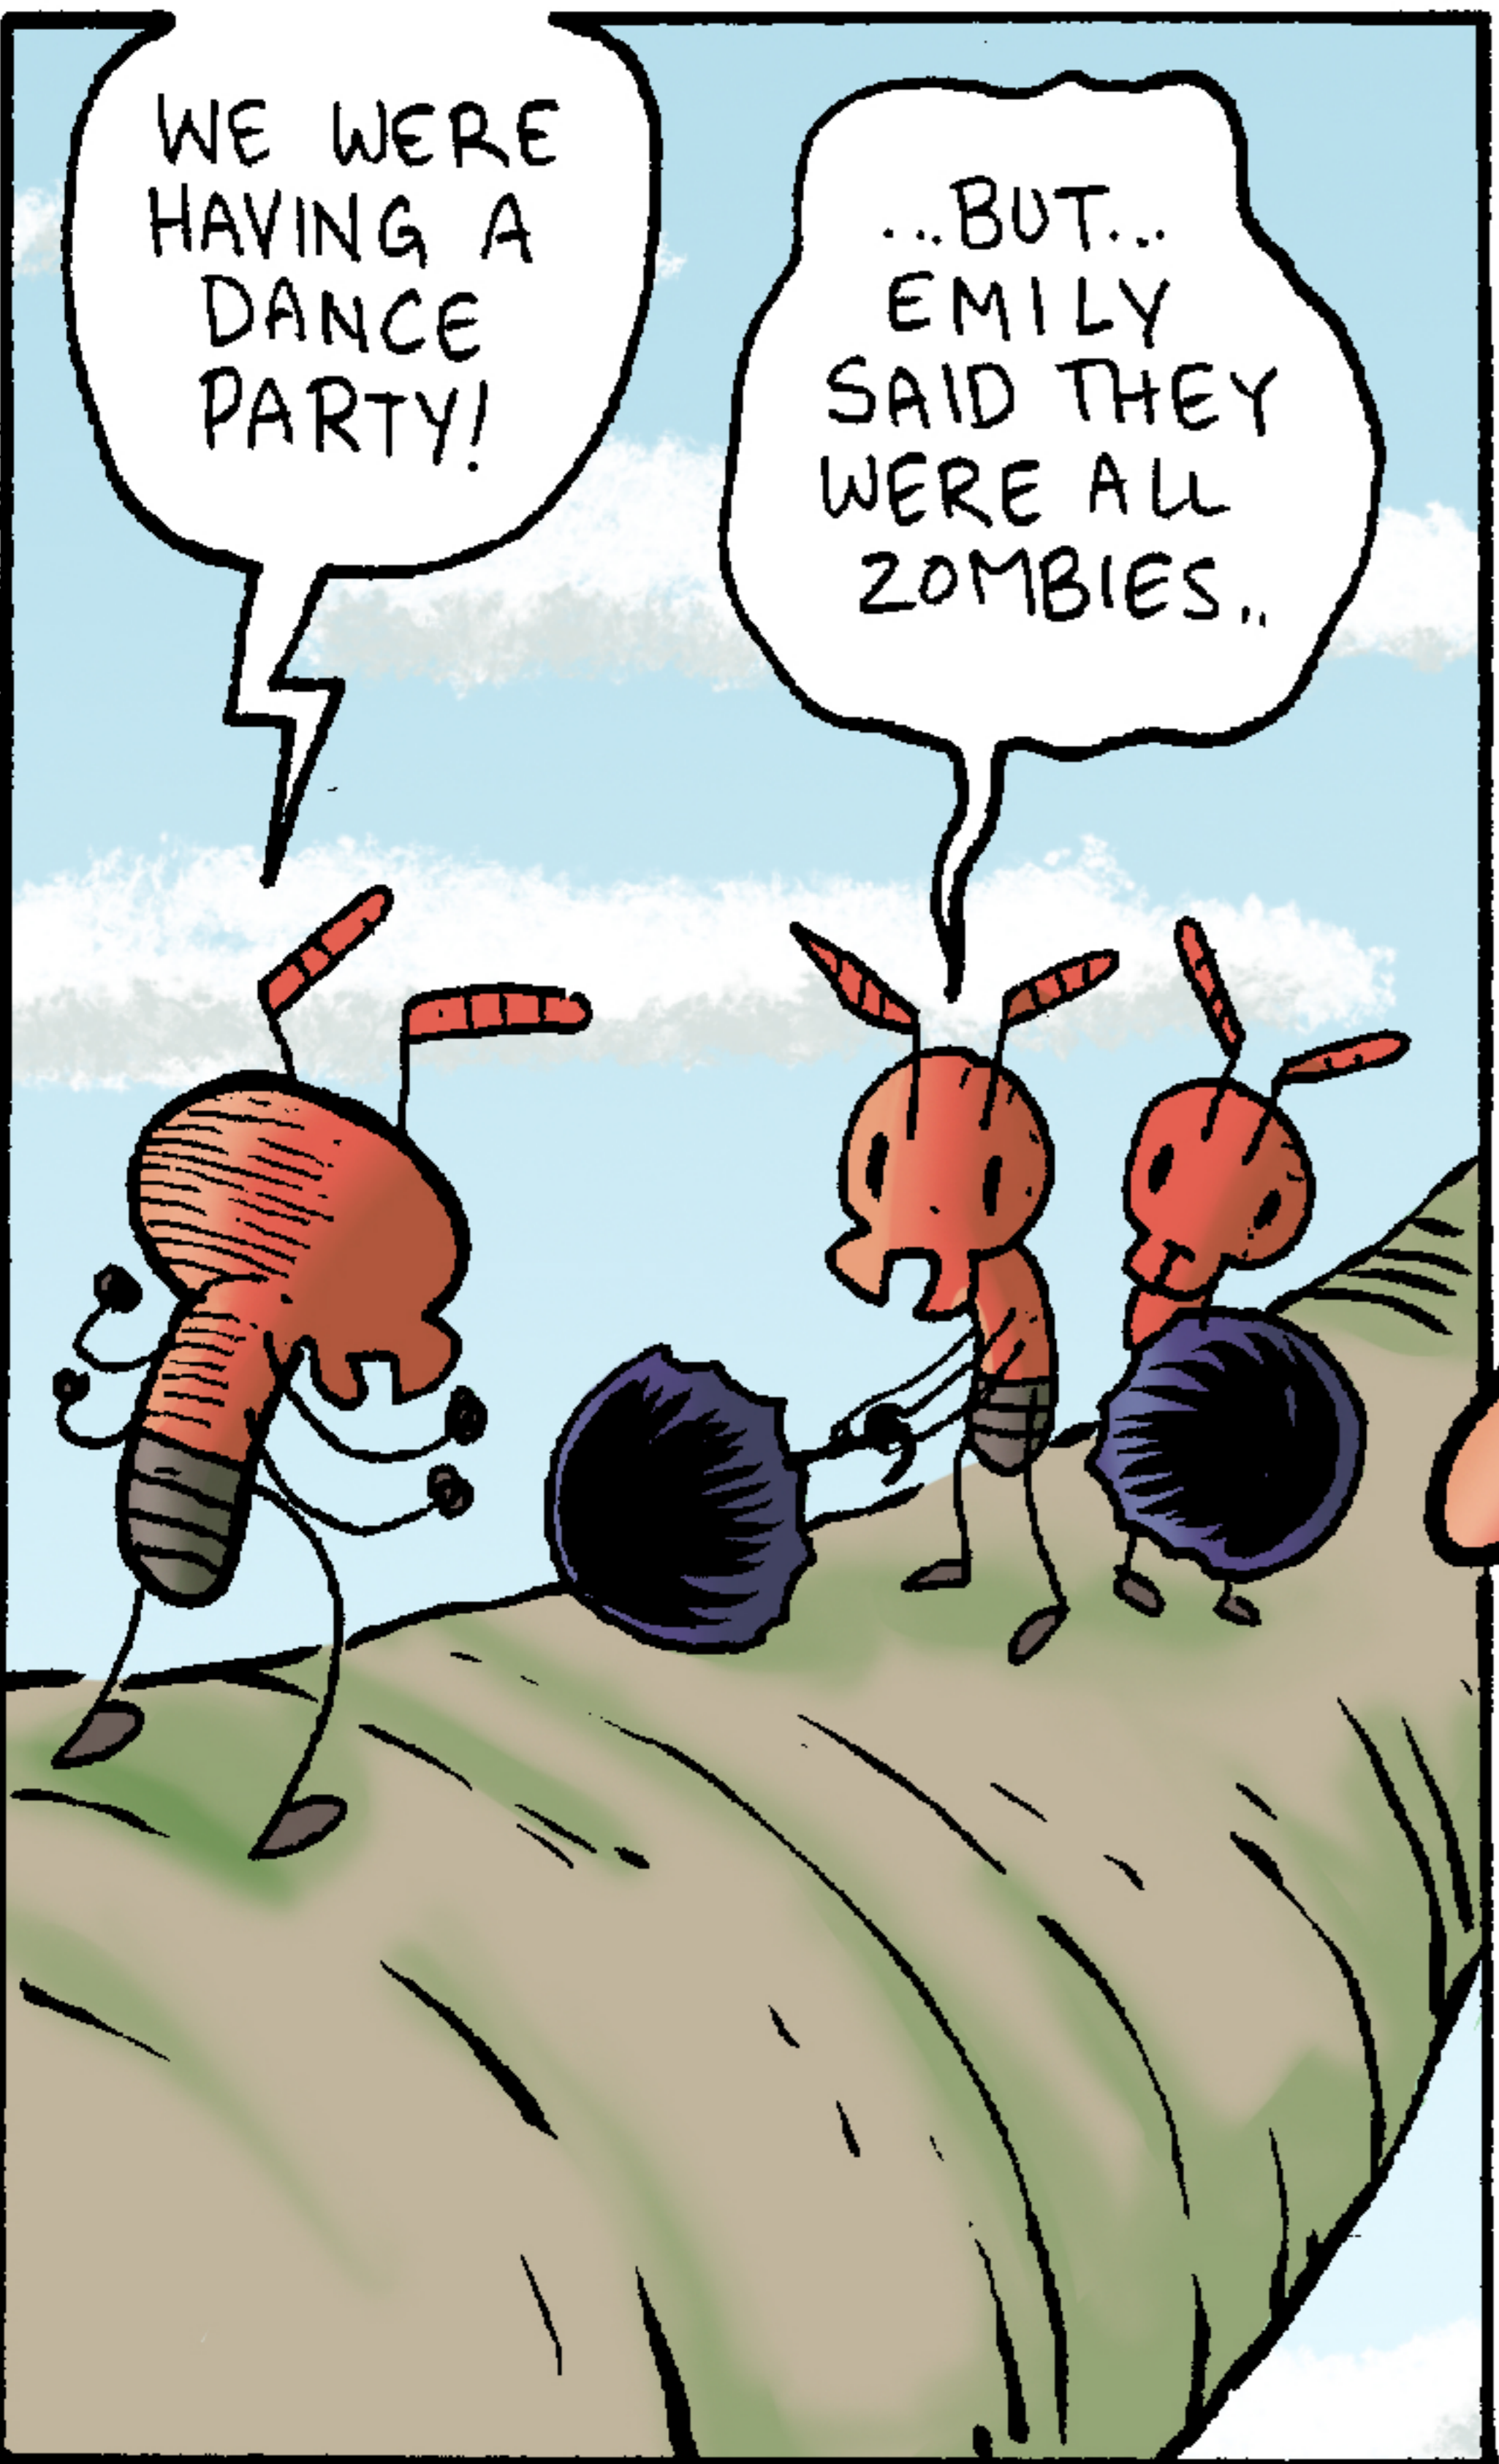

WHOOOP!

STOP!

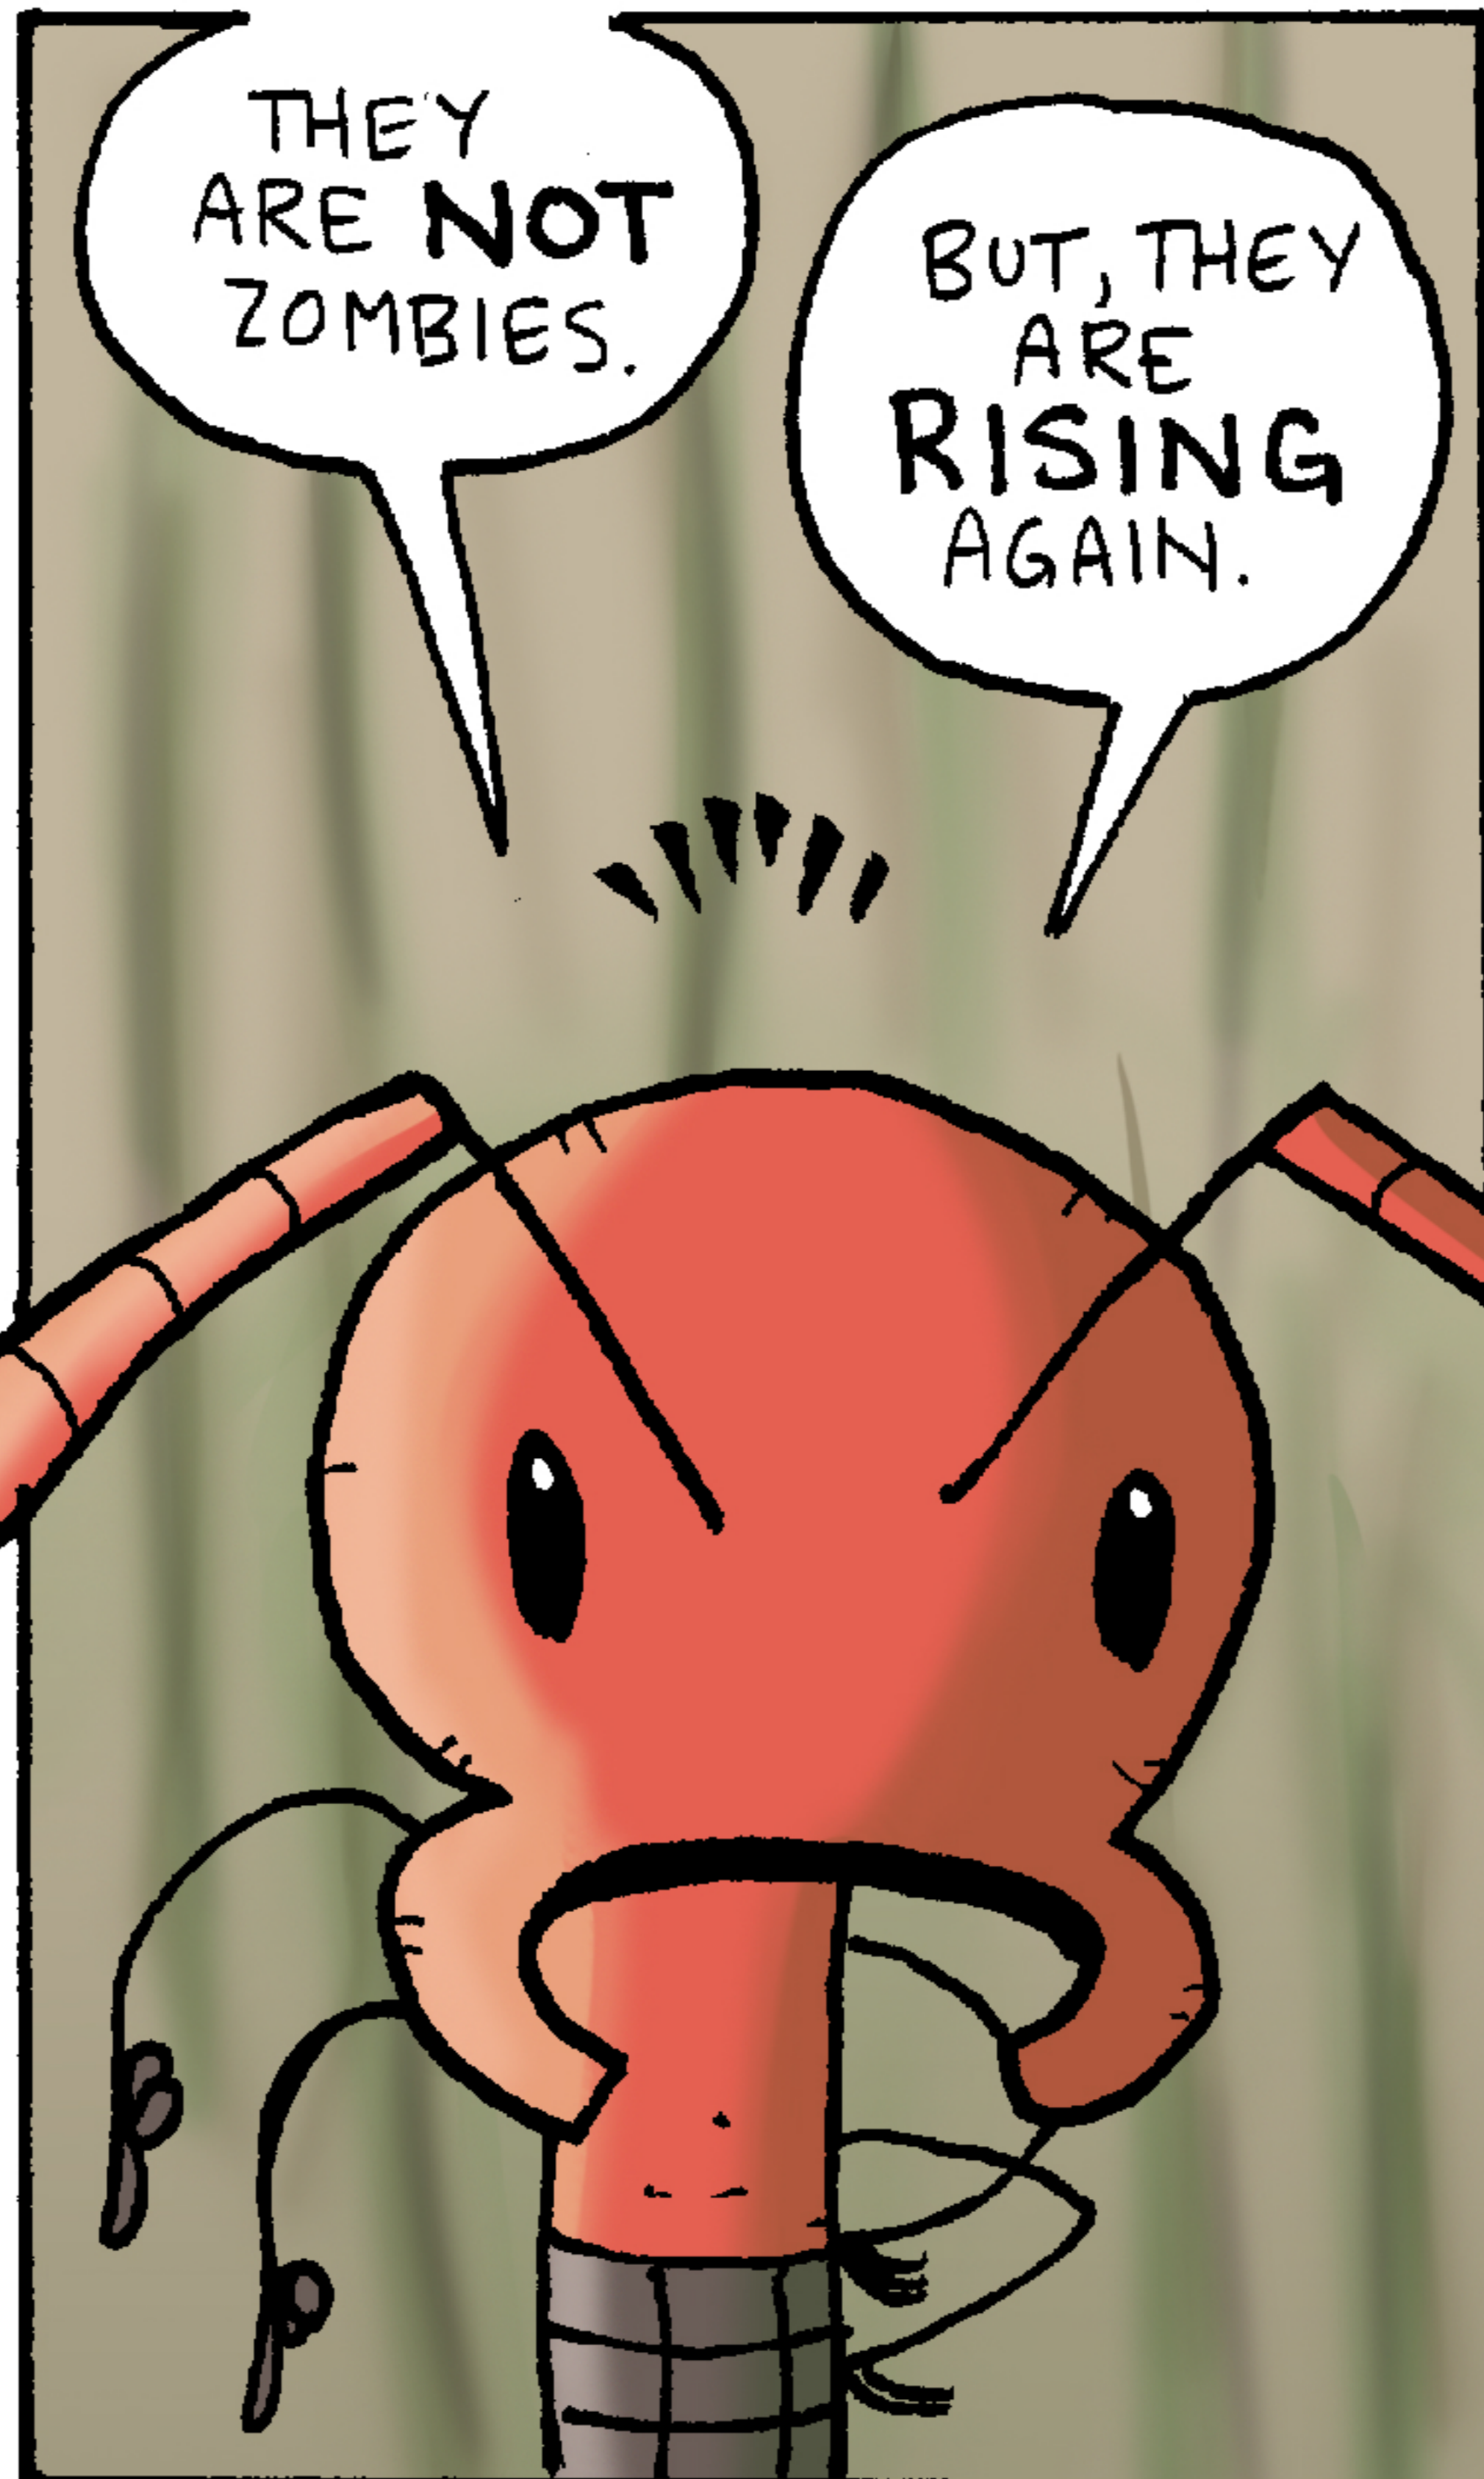

WENDY! AMANDA! WHAT ARE YOU DOING?

stopping a zombie apocalypse?

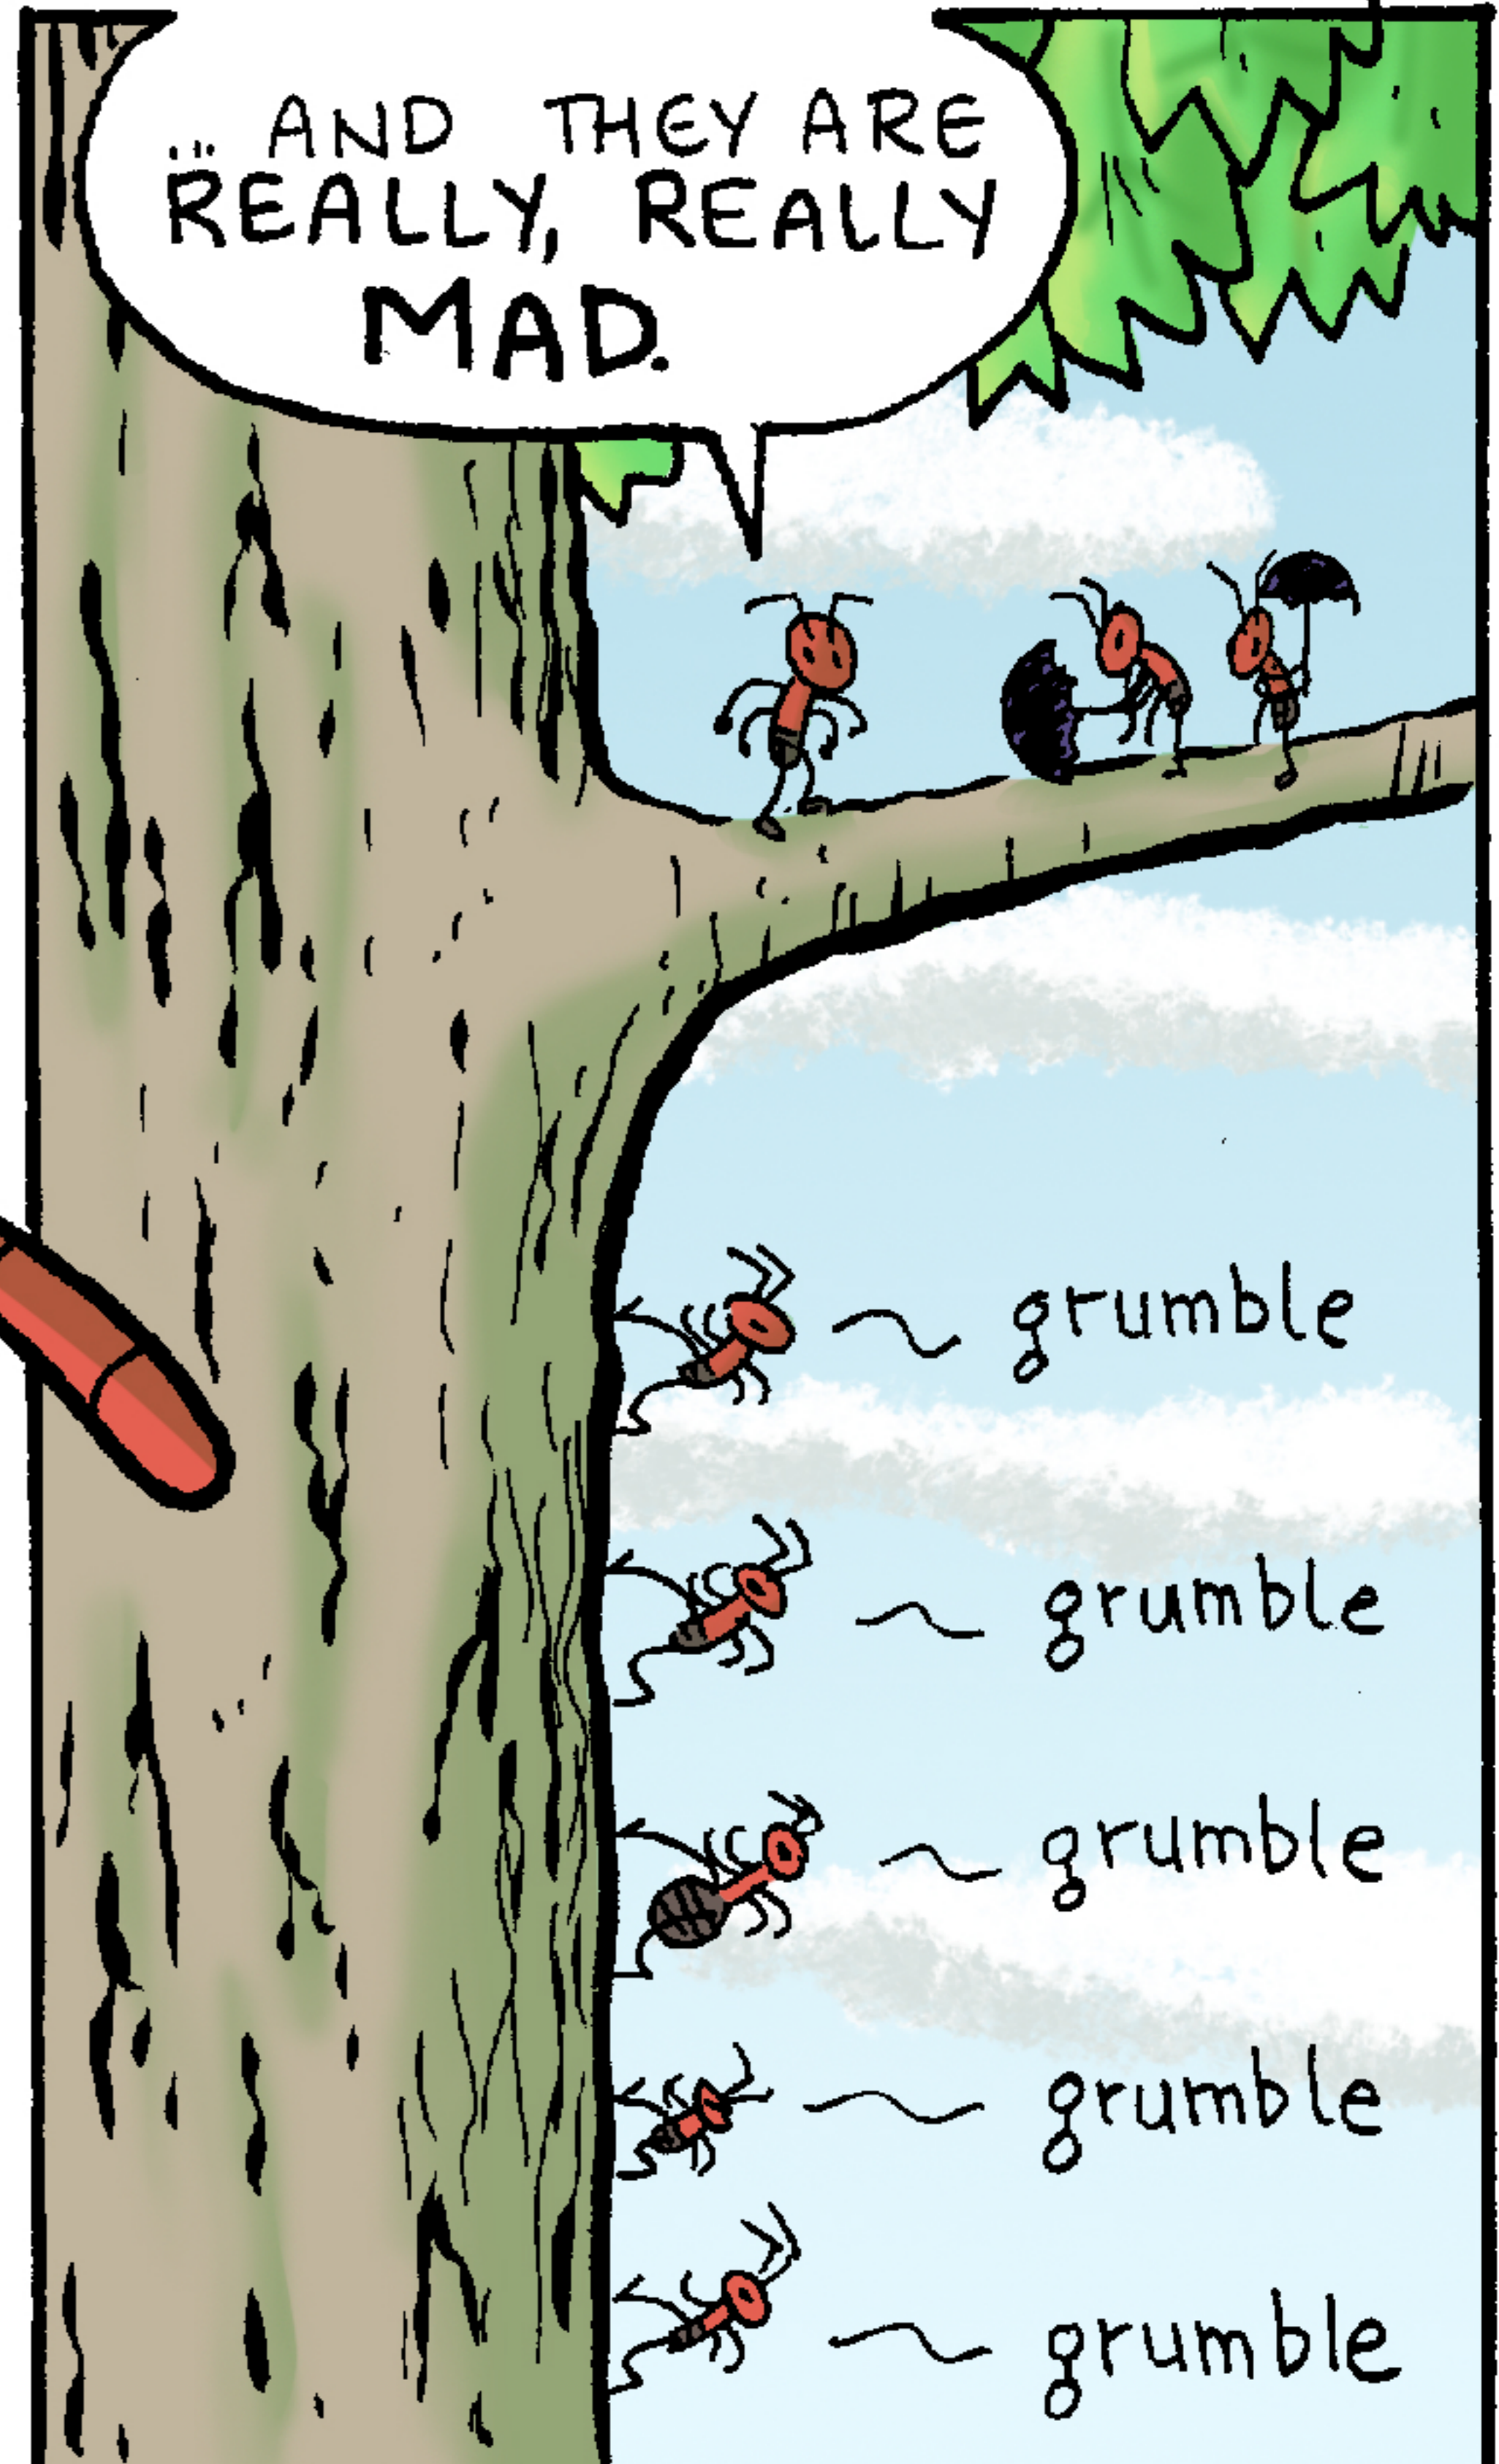

WE WERE HAVING A DANCE PARTY!

...BUT... EMILY SAID THEY WERE ALL ZOMBIES..

THEY ARE NOT ZOMBIES.

BUT, THEY ARE RISING AGAIN.

... AND THEY ARE REALLY, REALLY MAD.
